Fliednerstr. 21
48149 Münster

The DATE ME FOR SCIENCE SPEED-DATING STUDY is part of the Münster Open Dating Projects, documented at the Open Science Framework: <https://osf.io/n7dw9/>

There you can also access data request forms and a documentation of papers coming out of these data sets.

The Date me for Science Study was executed by Stefanie Wurst under the supervision of Mitja Back as part of her doctoral dissertation. A previous version of this codebook and of the project documentation can be found at <https://osf.io/nwvr3/>

ACKNOWLEDGMENTS

The Date me for Science Study was executed by Stefanie Wurst under the supervision of Mitja Back as part of her doctoral dissertation. We thank Stefanie for her dedicated work on this project. Special thanks to the team of student assistants and research trainees who helped to run and to document the "Date me for Science Study": Renée Eloo, Nils Essen, Joelle Grimm, Jana Pydd, Alina Rumprecht, Mira Salomon, Eileen Sauer, Lea Schlömp, Paula Schweppe, Mira Schwick, Luisa Tamm, Julia Törk, Christina Vogelpoth, Annsophie von Frenckell, and Robin Zimmermann. And thanks to Thomas Regier who optimized the dating sequence for our speed-dating events.

STUDY OVERVIEW

The idea of this part of our Codebook is to give you a very short overview of our study. We will point out the major parts of the study describing very briefly what the procedure in each part comprised, name the assessed constructs and the questionnaires we used to measure them.

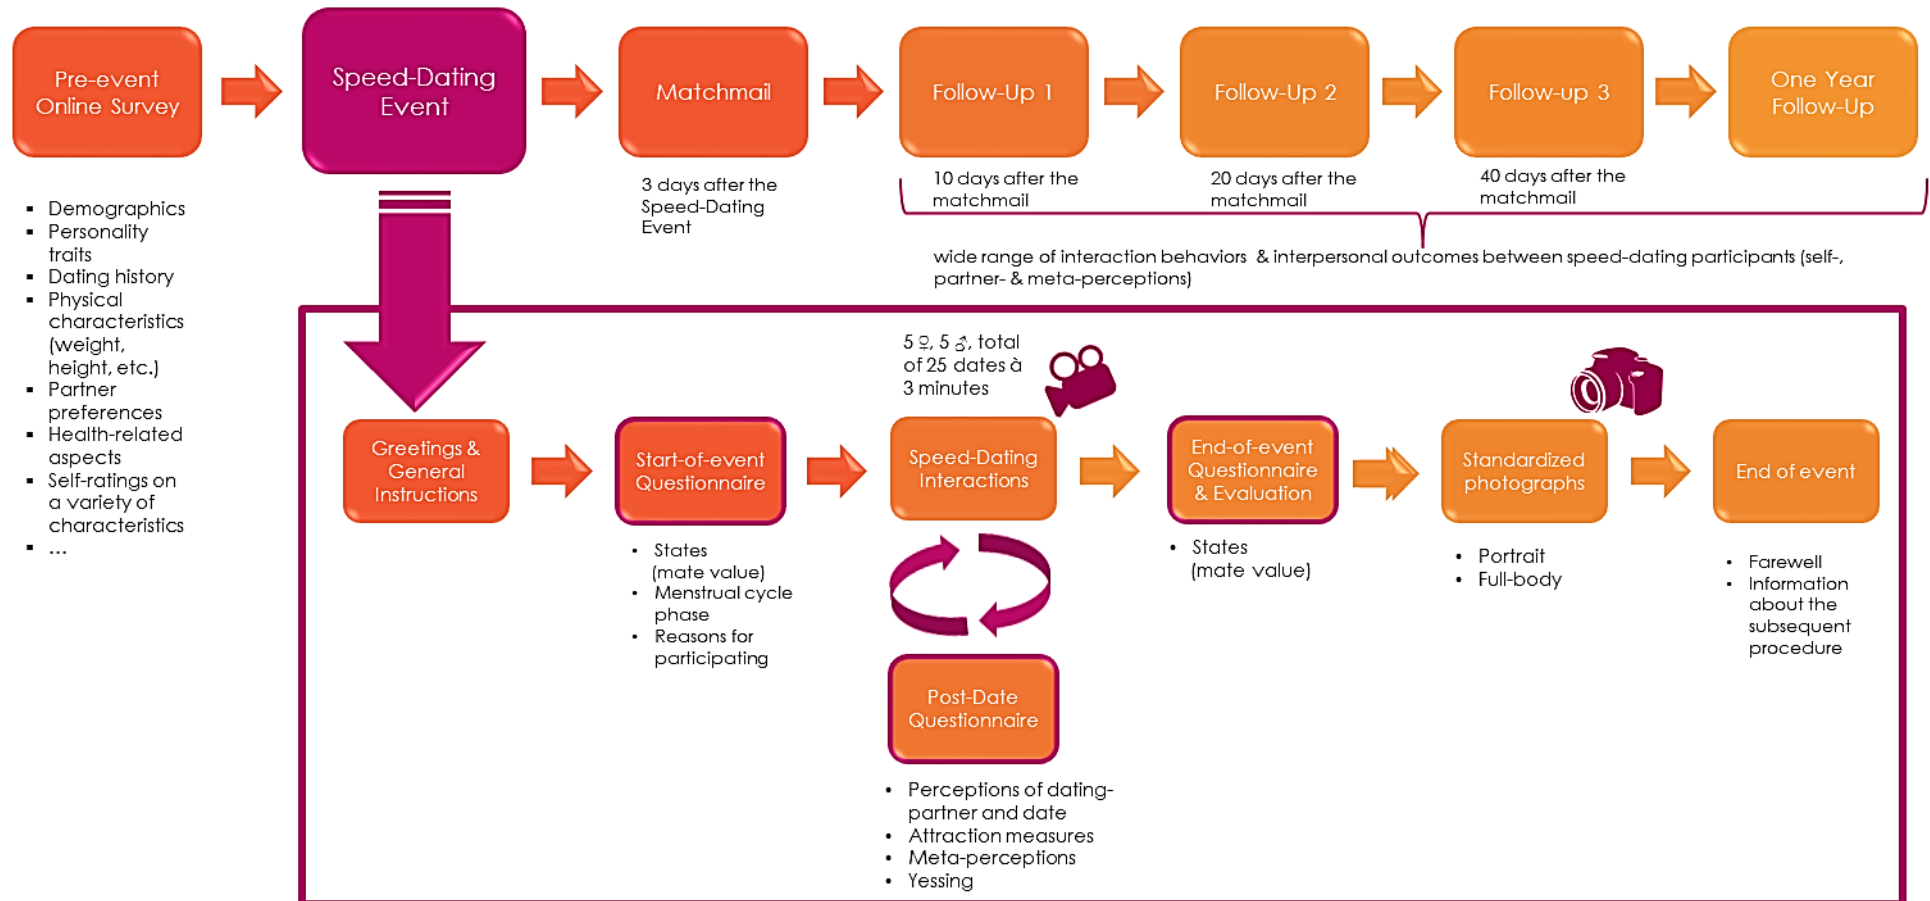

Goal of the Date me for Science Study: The study aims at filling a crucial gap in the dating and romantic relationship literature: Investigating the processes that happen between initial romantic encounters and the later formation of romantic relationships. The study was designed to longitudinally track and examine the behavioral, perceptual, and judgmental processes that guide initial and later attraction and dating decisions and to investigate their short- and long-term consequences—from initial and subsequent romantic encounters to the later formation of sexual and/or romantic relationships.

Requirements for participation: Participants had to be predominantly heterosexual, aged between 18 and 28 and currently looking for a romantic partner. Furthermore, participants had to hold a university entrance diploma or currently be about to acquire one (diploma from German secondary school qualifying for university admission or matriculation; “Abitur” in Germany) to assure a similar educational background in order to raise the probability for matches.

The Date me for Science Study in a nutshell: A total of 400 participants, who were currently single and looking for a romantic partner were invited to one of 42 speed-dating events in our laboratory. At each speed-dating event, five female and five male participants had 3-minute video- and audiotaped speed-dates with unacquainted participant of the opposite sex, resulting in 25 speed-dates per event. After each speed-date, participants filled in a post-date questionnaire about their respective dating partner, including their wish to exchange contact information with the dating partner (“Yes” vs. “No”). Matching pairs (i.e., dating-dyads that mutually “yessed” each) were followed up in three online questionnaires at 10 days, 20 days, and 40 days after they had received the contact information from us. Finally, all participants were contacted again exactly one year after their speed-dating event for a short online questionnaire. Speed-dating events took place between April 2015 and December 2015. The Date me for Science Study was conducted in Germany, thus, the language of questionnaires and instructions was German.

The procedure of the speed-dating study can be subdivided into seven main parts. Below, we will describe very briefly what the particular parts consist of. At the end of this Codebook you can find all the collected [VARIABLES](#) in detail.

TIMELINE

PRE-EVENT ONLINE QUESTIONNAIRE

ENTRY-CONDITION FOR THE SPEED-DATING EVENT; HAD TO BE FILLED OUT AT LEAST ONE DAY BEFORE THE SPEED-DATING EVENT

The speed-dating study started with an online survey in which we assessed participants' demographics and various information about their personality traits. Furthermore, we asked a variety of questions regarding the participants' stance on dating.

Construct	Questionnaire
Demographics	Self-generated items
Health Related DVs	Self-generated items
Sexual Orientation	Kinsey-Scale Kinsey, A. C., Pomeroy, W. B., & Martin, C. E. (1948). <i>Sexual behavior in the human male</i> . Oxford, England: Saunders.

Schmitt, D.P. & Buss, D. M. (2001). Human mate poaching: tactics and temptations for infiltrating existing mateship. *Journal of Personality and Social Psychology*, 80(6), 894-917.

Desire for a Partner

Buss, D. M., & Schmitt, D.P. (1993). Sexual strategies theory: An evolutionary perspective on human mating. *Psychological Review*, 100(2), 204-232.

Partner preferences: Ideal Trait Values

Partner preferences: Trait Importance

Self-evaluation on the partner preference characteristics

Self-generated item list based on extensive piloting (further details on the selection of the items can be obtained from Stefanie Wurst [stefanie.wurst@wwu.de])

SPEED DATING EVENT

Before they started with the speed-dating interactions, participants answered an initial questionnaire (for variables see: [START-OF-EVENT COMPUTER QUESTIONNAIRE](#)). Directly after each date, participants answered several questions about the previous date (see: [POST-DATE COMPUTER QUESTIONNAIRE](#)).

At the end of the speed-dating event, participants answered the “[END-OF-EVENT COMPUTER QUESTIONNAIRE](#)”. Furthermore, we took standardized face and full body pictures of the participants (see: [PHOTOS](#)).

START-OF-EVENT COMPUTER QUESTIONNAIRE

Before the speed-dating interactions started, participants answered an initial questionnaire. This questionnaire contained a **state measure** of their mate value and participants’ **reasons for participation**.

POST- DATE COMPUTER QUESTIONNAIRE

Directly **after each speed-dating interaction**, the participants had to answer another questionnaire in which we assessed various information about their previous date, namely:

Item Category	Description
Rating about the previous date partner	Ratings about the dating partner on a set of 43 characteristics from the partner preferences assessment in the pre-event questionnaire
Evaluation of the previous date partner	Ratings about the dating partner’s mate value
Evaluation of the previous date	Ratings about how the previous date went (e.g., “I enjoyed this date.”)
Romantic Attraction	Several measures of romantic attraction towards the respective dating partner (e.g., “I think, this person is romantically appealing”)
Meta-perception	Meta-perception on the mentioned measures (e.g., “My speed-dating partner thinks I am romantically appealing”)
Match	Wish to exchange contact information with the dating partner (“Yes” vs. “No”)

END-OF-EVENT COMPUTER QUESTIONNAIRE

At the end of the evening, participants answered the End-Of-Event Computer Questionnaire and filled in a declaration of consent to the use of their data. The questionnaire contained a **state measures** of their mate value.

MATCHMAIL (3 DAYS AFTER THE SPEED-DATING EVENT)

If both of the date partners agreed to share their contact details, we transferred their name, email-address and phone number to the particular date partner three days after the speed-dating. From this moment on participants could get in contact. Besides the contact information of their match(es), the mail contained and a link to take part in the follow-ups.

Participants who didn't have a match received an e-mail in which we thanked them for participation and wished them all the best for future dates.

FOLLOW-UP ONLINE QUESTIONNAIRES 1-3

We conducted three match follow-up questionnaires. Follow-Up 1 started 10 days after the matchmail, Follow-Up 2 started 20 days and Follow-Up 3 40 days after the matchmail. In the matchmail, all participants with match(es) were invited to answer a short online questionnaire. We mainly assessed the same constructs in Follow-Up 1, 2, and 3:

Depending on their current relationship status, the participants answered different surveys: If the participant was in a relationship with one of our speed-dating attendees, he/she had to answer the **“Relationship Survey”**. If the participant was single or in a relationship with a person who was not part of the speed dating, he/she had to answer the **“Single Survey”**.

Both questionnaires contained adapted questions about the frequency and quality of interactions between matching-pair participants (including several measures of romantic attraction) and the meta-perception of these measures after the speed-dating event.

You find the detailed items in the [“VARIABLES”](#) part of this codebook.

1-YEAR FOLLOW-UP ONLINE QUESTIONNAIRE

One year after the speed-dating event, all participants (regardless whether they had matches or not) were invited via Mail to answer a short online questionnaire, which assessed various information.

First, all participants answered several questions about their trait and state mate value and about their dating history in the past year.

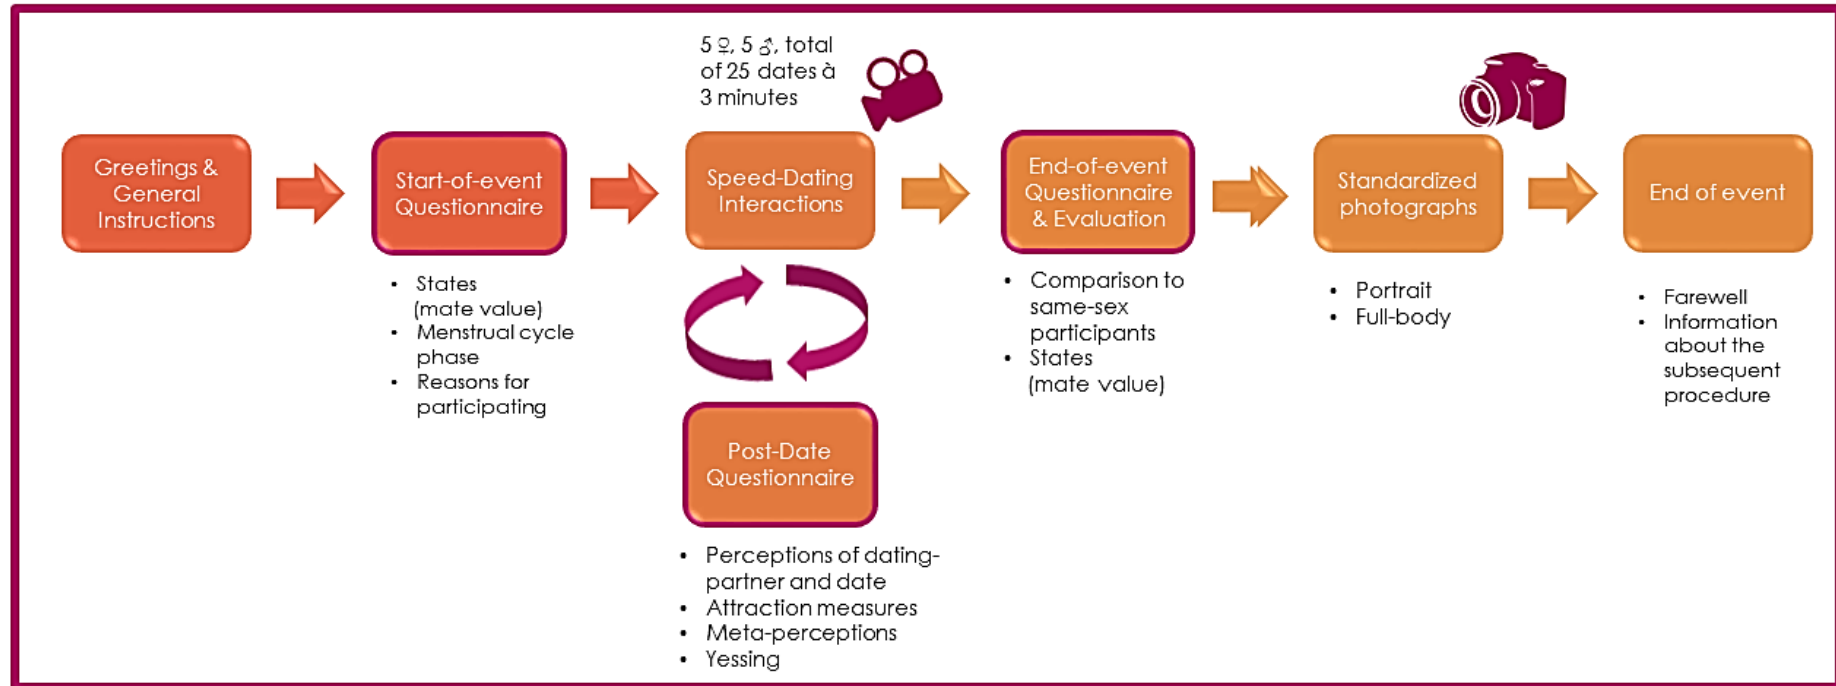

Depending on their current relationship status, the participants answered different surveys: If the participant was in a relationship with one of our speed-dating attendees, he/she had to answer the **“Relationship Survey”**. If the participant was single or in a relationship with a person who was not part of our speed dating, he/she had to answer the **“Single Survey”**. Both questionnaires contained questions about the frequency and quality of interactions between matching-pair participants (including several measures of romantic attraction) and the meta-perception of these measures after the speed-dating event adapted to the kind of their relationship.

At the end of the questionnaire, all participants were asked to answer additional questions concerning their relationship values, self-esteem and life-satisfaction, as well as demographics and health-related questions.

You find the detailed items and references in the [“VARIABLES”](#) part of this codebook.

SPEED DATING EVENT

PROCEDURE OVERVIEW

GENERAL PROCEDURE

For each evening, we invited participants studying different subjects in order to maximize the probability that participants were unacquainted. At the speed-dating event, men and women entered the speed-dating location from two different entrances. They were picked up at those entrances by two speed-dating hosts, respectively. The speed-dating hosts guided the group of men and women to two different welcoming rooms. After a general instruction, women were shown the dating room first. After that, they were lead into the computer room and sat down in their cabins. Once they were in the computer room, men were shown the dating room and then were lead to the computer room as well. Thus, women were not visible for men anymore when they entered the computer room. This procedure was necessary so that men and women did not meet before their speed-dating interactions.

For each speed-date, the speed-dating hosts first brought one woman from her cabin into the dating room. Once the woman was in the dating room, the speed-dating hosts brought one man from his cabin into the dating room where the woman was already waiting. The date partners were left alone in the dating room for their date. After their date, they were brought back to their cabins. As soon as the participants were back in their cabins, the next woman and man were brought to the dating room. For detailed information on how the dates were organized, see [SEQUENCE OF THE DATES](#).

After all dates were finished, one speed-dating host took pictures of the participants. For details and examples for pictures, see [PHOTOS](#).

PHOTOS OF THE ROOMS

The speed-dating event mainly took place in three rooms: Two welcoming rooms (one of them shown in Fig. 1) where men and women received general instructions, the dating room (Fig. 2) where the date partners had their dates, and the computer room (Fig. 3) where the participants answered questionnaires on a computer after each date. For more details on the laboratory setting, see [LABORATORY SETTING](#).

Figure 1. Welcoming room.

Figure 2. Dating room. Women sat on the red side, men on the blue side of the couch.

Figure 3. Computer room.

GREETINGS AND GENERAL INSTRUCTIONS

We will now describe the Speed-Dating-Event in detail. To do so, we will primarily quote the verbal instructions that were given by the speed-dating hosts during the event. The detailed items from the questionnaires are presented in the “VARIABLES”-part of this Codebook. Italics indicate the location where the verbal instructions were given.

The speed-dating hosts gave instructions once all participants of their female or male group were present. However, if not all participants had appeared after 15 minutes of waiting, they started to give instructions. In that case they put up signs indicating the way to the welcoming room while leading the present participants to that room.

Construct/ Instructions	General Instruction_German	General Instruction_English
Verbal Introduction	<p><i>(am jeweiligen Treffpunkt der Frauen und Männer)</i></p> <p>Seid ihr die Teilnehmer fürs Speed-Dating? Schön, dass Ihr da seid! Ich bin [Name] und eine von zwei Speed-Dating-ModeratorInnen heute. Als erstes würde ich gerne abhaken, ob ihr alle da seid. Hier ist dein Schild. Bitte später einfach irgendwo an deinem Oberteil/Pulli befestigen. Vielleicht wundert ihr euch, wo die Männer/Frauen sind: Diese werden getrennt von euch begrüßt und zu unseren Räumen gebracht. Ihr werdet euch also tatsächlich erst bei den Dates zum ersten Mal gegenseitig sehen. Wie der heutige Abend abläuft, werde ich euch gleich erklären.</p> <p>Muss jemand von euch noch zur Toilette? Das Speed-Dating wird ca. 3h dauern, in denen ihr immer nur sehr kurze Pausen habt. Im Notfall könnt ihr in diesen Pausen natürlich auf die Toilette gehen, aber wirklich nur im Notfall, weil die Zeit sehr knapp ist. Deswegen: Vielleicht lieber jetzt nochmal auf die Toilette gehen?“</p>	<p><i>(at the respective meeting point for women and men)</i></p> <p>Are you the speed-dating participants? Thank you for coming! I am [name] and one of two speed-dating hosts today. First, I would like to check if you are all present. This is your name plate. Please attach the plate to your top/ shirt/ sweater later. You might wonder where the men/ women are: they are being instructed and brought to our rooms separately. You will meet for the first time when your dates start. I will soon explain the procedure of this evening to you.</p> <p>Does anyone of you need to go to the bathroom? The speed-dating event will take 3 hours in which you will only have very short breaks. Should it be necessary you can of course use the bathroom during those breaks, but just if it is really necessary because time is short. For this reason: Do you want to use the bathroom now?</p>
	<p><i>(Während der Wartezeit)</i></p> <p>Ich als Versuchsleiterin bin angewiesen, nicht mit euch zu sprechen. Ihr könnt euch aber gerne miteinander unterhalten.</p>	<p><i>(during the waiting time)</i></p> <p>As a speed-dating host, I am not allowed to talk to you. Feel free to chat with each other, however.</p>

Construct/ Instructions	General Instruction_German	General Instruction_English
Verbal Introduction	<p><i>(im Begrüßungsraum)</i></p> <p>Bitte nehmt auf diesen Stühlen Platz. Noch einmal herzlich willkommen zu unserem Speed-Dating. Ich möchte euch vorab kurz erklären, wie die nächsten zweieinhalb bis drei Stunden ablaufen:</p> <p>Beim Speed-Dating geht es allgemein darum, mehrere Personen des anderen Geschlechts innerhalb einer kurzen Zeit erstmalig kennenzulernen. Ihr werdet also gleich nacheinander Dates mit 5 [Frauen/Männern] haben. Da wir uns hier am Institut für die ablaufenden Datingprozesse interessieren, werden eure Dates per Video aufgezeichnet. Außerdem werdet ihr während des Dates ein Mikro tragen, sodass auch der Ton aufgenommen wird.</p> <p>Ihr werdet nach jedem eurer Dates eine kurze Dating-Pause haben, bevor es mit dem nächsten Date weitergeht. In diesen Dating-Pausen werdet ihr jeweils einige Fragen zu dem gerade erlebten Date in einem Fragebogen am PC beantworten. Eine wichtige Frage in diesem Pausenfragebogen ist, ob ihr mit eurem letzten Datepartner gerne die Kontaktdaten austauschen wollt. Wenn dann ihr und euer Datepartner diese Frage mit Ja beantworten, werden wir eure jeweiligen Kontaktdaten weiterleiten. Das heißt: Wenn <u>beide</u> Datepartner zustimmen, werden wir euren Namen sowie eure Handynummer und E-Mail-Adresse dem jeweils anderen mitteilen, sodass ihr Kontakt miteinander aufnehmen könnt. Wenn nur einer oder keiner der beiden Datepartner zustimmt, werden die Kontaktdaten nicht weitergeleitet. Habt ihr dazu noch Fragen?</p> <p>Insgesamt wird der Ablauf so sein, dass immer einer von euch gerade sein Date hat, während die anderen ihre Datingpause haben. Das ist also ein bisschen anders als bei kommerziellen Speed-Dating-Events. Ganz am Ende dann, wenn alle Dates vorbei sind, werden von jedem von euch noch Fotos gemacht.</p> <p>Habt Ihr bis hierhin erst einmal Fragen?</p>	<p><i>(in the welcoming room)</i></p> <p>Please take a seat. Once again, I'd like to welcome you to our speed dating. To start off, I'd like to shortly explain what the following two and a half to three hours will look like:</p> <p>In general, speed dating is about meeting several persons of the other sex for a short period of time. So, you will be dating five [women/ men] one by one. Since we are interested in the dating processes we will record your dates on video. In addition, you will wear small microphones so that sound is also recorded.</p> <p>You will have a short break after each date before moving on to the next date. During this break we would like you to answer a few questions about your last date in a questionnaire on the computer. A very important question in this questionnaire is about your consent to exchange personal data with your former dating partner. If you <u>and</u> your dating partner agree to this question we will exchange your personal data. This means: if both dating partners agree we will share your names, mobile numbers, and mail addresses so that you can contact each other. If only one or none of both dating partners agree we won't exchange personal data. Do you have any questions so far?</p> <p>In general, the procedure provides that one of you will have a date while the others have their dating break. So, this is a bit different from commercial speed dating events. In the very end, when all dates have finished, we will take photos of each of you.</p> <p>Do you have any questions so far?</p>

Construct/ Instructions	General Instruction_German	General Instruction_English
	<p>Nicht? Okay, super. Das waren also die Infos, wie der heutige Abend abläuft.</p> <p>Zur Erinnerung:</p> <p>Zu unserer Studie gehört auch eine kurze Nachbefragung in den nächsten Wochen. Denn uns interessiert natürlich, wie es zwischen euch und den Frauen/ Männern weitergeht.</p> <p>Mehr Infos dazu bekommt ihr am Ende des heutigen Abends nochmal.</p> <p>Aber erst mal kommt der heutige Abend und eure Dates.</p> <p>Und für die Verwendung des heute hier erhobenen Materials für wissenschaftliche Zwecke brauchen wir Eure Zustimmung. Deshalb liegen vor Euch Einverständniserklärungen in zweifacher Ausfertigung. Bitte dreht diese um und lest sie euch genau durch. Wenn ihr einverstanden seid, unterschreibt bitte eines der beiden Exemplare. Das zweite Exemplar ist für euch zum Mitnehmen. Wenn ihr Fragen dazu habt, meldet euch bitte.</p> <p>Dankeschön fürs Ausfüllen!</p> <p>Bitte schaltet jetzt alle elektronischen Geräte aus, die ihr dabei habt – z.B. Handys, iPods, MP3-Player – und packt sie in hier in diesen Behälter. Die elektronischen Geräte müssen in jedem Fall ausgeschaltet sein, da sie sonst die Frequenz unserer Technik stören und damit zu Störungen des heutigen Ablaufs führen können.</p> <p>Hier habt ihr auch nochmal die gesamten Teilnehmerinformationen, die wir euch grade gegeben haben, damit ihr alles nochmal nachlesen könnt, falls das jetzt gerade zu viele Informationen auf einmal waren. Die Teilnahmeinformationen könnt ihr dann auch mit nach Hause nehmen.</p> <p>Ok, dann kann es jetzt losgehen!</p>	<p>So you do not have any questions? Okay, very good. This were the information about this evening's procedure.</p> <p>As a quick reminder: one part of our study consists of a short follow-up questionnaire in a few weeks because we are interested in how things develop with you and the women/ men.</p> <p>You will receive further information later this evening.</p> <p>But first, let's focus on tonight and your dates.</p> <p>To be able to use today's collected data for research purposes we need your consent. For this purpose, you can see written declaration of consent in duplicate in front of you. Please turn it over and read it carefully. If you agree, sign one of the two copies, please. The second copy is for you to take home. If you have any questions, let me know.</p> <p>Thanks for signing the consent forms!</p> <p>Please turn off all electronic devices you carry with you – mobile phones, iPods, MP3-Players and so on – and put them into this box. All electronic devices must definitely be turned off because otherwise, they might interfere with frequencies of our technology and might thereby lead to disturbance of today's procedure.</p> <p>Hereby I give you all the participant information that I have just explained to you on paper. These papers are for you to take home and re-read in case it was too much information to take in at once.</p> <p>Ok, so we can start now.</p>

For Latecomers the verbal instructions were summarized in a written version that was left behind in the welcoming room. There they also found the declarations of consent so they could inform themselves about the procedure of the evening. As long as they got to the welcoming room early enough to answer the Start-Of-Event Computer Questionnaire before their first date, they were given the chance to participate in the event.

Construct/ Instructions	General Instruction_German	General Instruction_English
Verbal Introduction	<p><i>(im Datingraum)</i></p> <p>Das ist der Raum, in dem eure Dates stattfinden werden. Hier auf dem Sofa werdet ihr Platz nehmen. Die Frau sitzt rechts auf der roten Sofaecke, der Mann sitzt links auf der blauen Sofaecke.</p> <p>Hier drunter (<i>auf die Tischdecke zeigen</i>) befinden sich weitere Kameras, die aber nicht benutzt werden. Deshalb sind die abgedeckt.</p> <p>Ich werde euch jetzt in unseren Computerraum führen, in dem ihr euch in den Datingpausen aufhalten werdet. Ihr könnt euch von dem Tisch noch etwas zu essen oder trinken mitnehmen, wenn ihr möchtet.</p>	<p><i>(in the dating room)</i></p> <p>This is the room where you will have your dates. You will sit on this couch. The woman will sit on the right, red side of the couch, the man on the left, blue side.</p> <p>There are other cameras below this tablecloth (pointing at the tablecloth) which are not used tonight. That's why they are covered.</p> <p>I will now show to you the computer room where you will stay during your dating breaks.</p>
Verbal Introduction	<p><i>(im Computerraum)</i></p> <p>Ihr werdet gleich hier in den Kabinen Platz nehmen. Eure Taschen und Jacken bitte hier (Eingangsbereich) ablegen. Wenn ihr für den Abend noch etwas aus euren Taschen braucht – z.B. Tempos oder so – dann nehmt das bitte jetzt aus der Tasche und mit in eure Kabine.</p> <p>Bitte setzt euch in die Kabine mit der Nummer, die in der Mitte eures Schildchens steht. Bitte macht aber noch nichts am Computer.</p> <p>Bitte wartet jetzt ruhig in euren Kabinen. Macht bitte noch nichts am Computer und sprecht nicht, da die Männer gleich kommen. Wenn sie da sind, erkläre ich weiter. Es ist wichtig, dass die Männer eure Stimmen nicht vor dem Date hören, da wir den ersten Eindruck zweier Menschen voneinander im Date auffangen möchten. Dazu gehört auch, dass die Stimme des anderen vorher noch nicht gehört wurde. Bis die Männer kommen, könnt ihr auch gerne in der bereitgelegten Literatur lesen oder ein bisschen rätseln.</p>	<p><i>(in the computer room)</i></p> <p>You will take a seat in these booths in a short while. Please put your bags and jackets here (entrance area). If you need anything from your bag for this evening – tissues for example -, please take it out now and bring it with you to your booth. Please take a seat in the booth that shows the number which you find in the middle of your plate. Do not use the computer yet, please.</p> <p>Please wait quietly in your booth now. Do not use the computer, please, and do not talk since the men will arrive in a moment. When they have arrived I will continue my explanations. It is important that the men won't hear your voices before your dates. This is because we want to capture the first impression of two persons of each other. This includes that you haven't heard the other's voice previously. Feel free to read the magazines provided or try yourself at solving the logic puzzles until the men will arrive.</p>

Construct/ Instructions	General Instruction_German	General Instruction_English
	<i>(wenn es an der Tür klopft)</i>	<i>(when there is a knocking at the door)</i>
	Die Männer kommen jetzt. Bitte seid ab jetzt komplett still.	The men are arriving. Please keep completely quiet now.
	Für die Männer, die mich noch nicht kennen: Ich bin [Name] und die zweite Versuchsleiterin heute.	To the men who do not know me yet: I am [name]. I am the second speed-dating host today.
	Es beginnen jetzt gleich eure Dates. Vorab aber noch ein paar Infos:	Your dates are going to start in a moment. In advance I would like to provide you with some information:
	Es ist wichtig, dass ihr bitte während der gesamten Zeit hier im Computerraum nicht sprecht. Wenn Ihr Fragen habt, streckt euren Arm aus der Kabine. Einfach seitlich durch den Vorhang durch. Ich komme dann und helfe. Bitte flüstert dann, wenn ihr mir eure Frage stellt.	It is very important that you do not speak while being in this computer room. If you have a question, please just hold your arm out of your booth. Simply stick it sideways out of the curtain. I will come to you and attend to any issues/questions you might have. Please whisper your questions.
	Hier im Computerraum und in euren Kabinen befinden sich <u>keine</u> Kameras.	There are <u>no</u> cameras inside this computer room or your booths.
	Wenn ihr im Laufe des Abends zur Toilette müsst, streckt bitte auch euren Arm aus der Kabine. Da wir einen festen Zeitplan haben, kann es sein, dass ihr mal 10min warten müsst, bis ihr auf die Toilette könnt. Sagt deshalb bitte lieber rechtzeitig Bescheid.	If you need to go to the bathroom during this evening, please hold out your arm, too. Since our schedule is quite tight, it is possible that you will have to wait for 10 minutes or so until you can go to the toilette. Therefore please inform us as early as possible.
	Habt ihr dazu noch Fragen? Wenn ja, streckt bitte euren Arm aus der Kabine.	Do you have any questions? If so, please hold your arm out of your booth.
	Dann noch ein paar Infos zu euren Dates. Wenn ihr gleich mit einem eurer Dates dran seid, werdet ihr von mir abgeholt. Jedes Speed-Date dauert 3 Minuten. Was Ihr mit Eurem Date redet oder macht ist euch selbstverständlich völlig freigestellt. Nach jedem Date werdet ihr zurück in den Computerraum gebracht. Habt ihr dazu noch Fragen? Wenn ja, streckt bitte euren Arm aus der Kabine.	Finally, here is some information about your dates: When it is your turn, I will come and take you to your date. Every speed dating session will take exactly 3 minutes. Of course, it is up to you to decide what you want to talk about or do with your dating partner. After each date you will be brought back to this computer room. Do you have any questions? If so, please hold your arm out of your booth.

SEQUENCE OF THE DATES

The table shows the order of the dates. On each speed-dating event participants were numbered from 1 – 10 (female 1-5, male 6-10). The speed-dating interactions were divided into 5 blocks. To make the waiting time between dates as short as possible for every participant, each participant had one date in each block. Each participant had dates with all participants of the opposite sex so that each participant had five dates. There were a total of 25 dates on each speed-dating evening. The duration of one date was three minutes. Participants who were late were put least in the order of the dates so that the procedure was not interrupted. If participants were absent, all dates with these persons were skipped.

Block 1		Block 2		Block 3		Block 4		Block 5	
female	male	female	male	female	male	female	male	female	male
1	6	1	7	3	7	3	9	5	9
2	7	3	6	1	9	5	7	3	10
3	8	2	9	5	6	1	10	4	7
4	9	5	8	2	10	4	6	1	8
5	10	4	10	4	8	2	8	2	6

PHOTOS

After the dates, we took standardized photographs of each participant: a full body picture and a portrait picture. Figure 4 shows an example of a full body picture; Figure 5 shows an example of a portrait picture. Each picture was taken twice to maximize the possibility of getting a good picture. For more detail on how we standardized the pictures see the blueprint of the dating room presented in Figure 9.

Construct/ Instructions	General Instruction_German	General Instruction_English
Verbal Introduction	<p><i>(im Datingraum)</i></p> <p>Bitte stelle dich hinter den Strich, der am nächsten an der Wand ist. Und zwar so, dass deine Fußspitzen gerade den Strich berühren. Ich mache jetzt vier Fotos von dir: 2 Ganzkörperfotos und 2 Portraitfotos. Bitte stelle dich aufrecht hin und schaue direkt in die Kamera. Bitte versuche auf den Fotos gleich ein möglichst neutrales Gesicht zu machen. Das heißt: nicht lächeln oder Ähnliches. Einfach schauen, wie auf den neuen biometrischen Passfotos.</p> <p>Vielen Dank. Du kannst dich jetzt nach draußen an den Tisch setzen und dort warten, bis auch die anderen Teilnehmer fertig fotografiert sind. Deine Sachen kannst du später aus dem Computerraum holen.</p>	<p><i>(at the dating room)</i></p> <p>Please stand at the line that is closest to the wall. Place the tips of your toes just at the line. I am going to take four photographs of you now: two full body and two portrait pictures. Please stand up straight and look right into the camera. Please try to show a neutral face for the photos. This means: try not to smile or anything similar. Simply look straight ahead, as you do on the new biometrical passport photos.</p> <p>Thank you very much. You can now sit down outside at the table and wait until all other participants have had their photos taken. You can get your things from the computer room later.</p>

Figure 4. Example of a full body picture.

Figure 5. Example of a portrait picture.

END OF EVENT

Construct/ Instructions	General Instruction_German	General Instruction_English
Final Verbal Instructions	<p>Ok, das war's. Vielen Dank für eure Teilnahme!</p> <p>Wir werden innerhalb der kommenden Woche auswerten, mit welchen Personen ihr eure Kontaktdaten austauschen wollt. Wenn diese Personen ebenfalls ihre Kontaktdaten mit <u>euch</u> austauschen wollen, bekommt ihr von uns eine E-Mail mit der Handynummer und E-Mail-Adresse dieser Personen, damit ihr miteinander Kontakt aufnehmen könnt.</p> <p>Habt ihr dazu Fragen?</p> <p>Zusammen mit der Mail mit den Kontaktdaten bekommt ihr außerdem nochmal alle Infos zur Nachbefragung: Wir werden euch in den nächsten 6 Wochen insgesamt 3 mal kontaktieren und euch jeweils bitten, einen kurzen Online-Fragebogen auszufüllen. Denn uns interessiert natürlich, wie es zwischen euch weitergeht: Ob ihr euch nochmal trifft, bei wem Freundschaften entstehen und ob bei jemandem vielleicht sogar mehr draus wird.</p> <p>Als Dankeschön für die Teilnahme an der Nachbefragung erhaltet ihr, wenn ihr wollt, eine detaillierte Rückmeldung zu euren Partnerpräferenzen; zum Beispiel was euren idealen Partner ausmacht oder ob ihr höhere oder niedrigere Ansprüche an euren Partner habt als andere Personen eures Geschlechts.</p> <p>Außerdem gibt es auch Geld für jeden ausgefüllten Fragebogen und wir verlosen zusätzlich 5x50€ unter den Teilnehmern, die alle 3 Fragebögen ausgefüllt haben. Es lohnt sich also mitzumachen.</p> <p>Habt ihr noch Fragen dazu? Oder noch andere Fragen?</p> <p>Ok, das war's von uns. Bitte seid so nett und gebt uns eure Schildchen, Stifte und eure Flaschen zurück, falls ihr euch etwas zu trinken genommen habt. Wir hoffen, es hat euch Spaß gemacht, und wünschen euch noch einen schönen Abend! Vergesst Eure Jacken und Taschen im Computerraum nicht.</p>	<p>Okay, that's it. Thank you very much for participating!</p> <p>During the next week we will evaluate whom you want to exchange your personal data with. If these persons want to exchange their personal data with <u>you</u>, too, you will get an email from us with the mobile number and email address of these persons, so you can contact each other.</p> <p>Do you have any questions about this?</p> <p>In addition to the mail with the personal data you will also get all information about the follow-up study: we will contact you 3 times during the following 6 weeks and will ask you to answer a short online questionnaire each time. Because we are interested in what is going to happen between you and your date(s): will you meet again? Will you develop a friendship or maybe even more?</p> <p>To thank you for your participation in the follow-up study you will receive, if you want to, a detailed feedback of your mate preferences; for example, what is your ideal partner like or do you have higher or lower demands on your partner than other persons of your sex.</p> <p>In addition, you will be paid for every completed questionnaire and we will raffle 5 x 50€ among all participants who will have completed all three questionnaires. So it's worth participating.</p> <p>Do you have any questions about the follow-up study? Do you have any other questions?</p> <p>Okay, that's it from us. Please be so kind and give back your plates, pens and bottles, if you had something to drink. We hope you enjoyed our study and we wish you a nice evening! Do not forget to get your jackets and bags from the computer room.</p>

LABORATORY SETTING

At this point, we very briefly present our premises and the laboratory setting in order to give you a better understanding of our experimental set-up.

COMPUTER ROOM

Figure 6. Set-up of the computer room.

The computer room was separated into ten different cabins (one for each participant) that could each be closed with a curtain. The numbers on the cabins matched with the numbers on the participants' patches.

Every cabin contained a computer, an evaluation sheet, declaration of consent for the use of video- and photo material, a compilation of riddles, a magazine, and a comic book.

Figure 7. One of the cabins in the computer room.

DATING ROOM

Figure 8 shows the dating room (above) and the control room in which one of the speed-dating hosts stayed during the speed-dating interactions (below). Thus, the cameras were positioned before the event and the video- as well as audio-recording was supervised by one of the speed-dating hosts.

Figure 8. Dating room and control room.

Figure 9 shows the blueprint of the dating room. The blueprint includes the precise position of the cameras. Cameras are numbered so you can look up their respective camera angles in [CAMERA ANGLES](#). Microphones were placed behind the couch. Furthermore, the section where we took standardized pictures of participants is shown (between the door and the big table in the middle of the room). The triangle represents the location of the tripod on which we later mounted the camera. During the photographing-process, participants were asked to stand right behind the (black) line closest to the wall. First, full body pictures were taken. Therefore the camera was mounted on the tripod. Then we took portrait pictures. For these pictures, the experimenter dismantled the camera from the tripod and stood at the shorter black line on the floor while photographing.

CAMERA ANGLES

Figure 10. Camera 1: Recording female participants.

Figure 11. Camera 2: Recording male participants.

Figure 12. Camera 3: Recording both participants.

Figure 93. Camera 4: Recording participants entering the dating room.

VARIABLES

PRE-EVENT ONLINE QUESTIONNAIRE

WELCOME PAGE

General Instruction_German

Liebe Teilnehmerin, lieber Teilnehmer,
vielen Dank für dein Interesse an unserer Speed-Dating-Studie.

Die Voraussetzungen für die Teilnahme an der Studie sind:

- Du bist momentan Single
- Du bist momentan auf der Suche nach einem Partner/einer Partnerin
- Du bist (überwiegend) heterosexuell
- Du bist zwischen 18 und 28 Jahren alt
- Du hast das Abitur oder bist gerade dabei es zu machen
- Du hast bisher noch nicht an einem unserer Speed-Datings teilgenommen

Die Studie wird von Wissenschaftlern des Instituts für Psychologie der WWU Münster begleitet. In der Studie wollen wir herausfinden, welche Prozesse beim Dating und bei der Partnerwahl eine Rolle spielen und wie diese mit der Persönlichkeit der Datenden zusammenhängen. Daher werden wir ein echtes Speed-Dating mit partnersuchenden Singles durchführen, was wir anschließend anhand von Foto-, Ton- und Video-Aufnahmen, die wir während eurer Dates machen, auswerten können. Außerdem bitten wir euch nach jedem eurer Dates ein paar kurze Fragen zu dem Date und eurem Datepartner zu beantworten.

Du unterstützt also nicht nur die Wissenschaft, sondern hast auch die reale Chance, neue Leute oder sogar einen Partner/eine Partnerin kennenzulernen.

Im Folgenden erwartet dich ein Fragebogen, in dem wir Dich nach Deinen persönlichen Eigenschaften fragen. Füllst Du diesen vollständig aus, kannst Du, bei einem der kostenlosen Speed-Dating-Termine (Termine: ab 20. April an verschiedenen Wochentagen; jeweils ab 18:00 Uhr) hier in Münster ([Adresse]) dabei sein. Unabhängig davon, ob Du einen Platz beim Speed-Dating ergatterst oder nicht, wird dir auf Wunsch nach dem Ausfüllen des kompletten Online-Fragebogens ein ausführliches Feedback zu Deinen persönlichen Eigenschaften gegeben.

Das Ausfüllen des Fragebogens wird ca. 45-60 Minuten dauern.

General Instruction_English

Dear participant,
Thank you for your interest in our speed-dating study.

The prerequisites for the participation in the study are:

- You are currently single
- You are currently looking for a partner
- You are (predominantly) heterosexual
- You are between 18 and 28 years old
- You have a university entrance diploma or are currently about to acquire one
- You did not already participate in one of our speed-dating events

The study is implemented by scientists of the institute of psychology of the WWU Münster. In the study we want to find out which processes matter in dating and partner choice and how these are associated with the personality of the speed-daters. That is why we will have a real speed-dating with singles searching for a mate that we will afterwards analyze on the basis of the picture, audio and video recordings we will take later during your dates. Additionally we ask you to answer some short questions about the date and the dating partner after each date.

You do not only support science but have an actual chance to get to know new people or even a partner.

On the following pages there will be a questionnaire waiting for you in which we will ask for your personal traits. If you answer it completely, you can participate in one of the free speed-datings (appointments: from 20th April on different weekdays; always at 6pm) here in Münster ([address]). Apart from having a chance to participate in a speed-dating event, you can get a detailed feedback about your individual traits after answering the complete questionnaire if you wish so.

The completion of the questionnaire will take approximately 45 to 60 minutes.

All variables collected in the pre-event online questionnaire are labelled with the prefix p_.

General Instruction_German

Bei Fragen oder Anliegen kannst Du Dich jederzeit per Mail an [E-Mail Adresse] oder telefonisch unter der Nummer [Telefonnummer] (wochentags von 9-18 Uhr) bei uns melden.

Die Teilnahme an der Studie ist freiwillig. Du kannst jederzeit und ohne Angabe von Gründen Deine Einwilligung zur Teilnahme an dieser Studie widerrufen, ohne dass Dir daraus Nachteile entstehen.

Datenschutz und Anonymität

Selbstverständlich unterliegt dieses Projekt strengen Datenschutzrichtlinien. Die Erhebung der Daten erfolgt anonymisiert, d.h. an keiner Stelle wird Dein Name erfragt. Stattdessen werden Deine Daten unter einem persönlichen Codewort gespeichert, das Du zu Beginn dieses Fragebogens anhand einer Regel erstellen wirst und das außer Dir niemand kennt. Eine ggf. von dir angegebene Telefonnummer und E-Mailadresse werden unabhängig von Deinen anderen Daten in einer separaten Liste gespeichert und ausschließlich zur Kontaktierung genutzt. Diese separate Liste ist nur den Projektmitarbeitern zugänglich. Sie wird in einem abschließbaren Schrank aufbewahrt und nach Abschluss der Datenerhebung vernichtet. Diejenigen Mitarbeiter, die durch direkten Kontakt mit Dir über personenbezogene Daten verfügen, unterliegen der Schweigepflicht.

Die online erhobenen Daten werden verschlüsselt auf einen gesicherten Server übermittelt, sodass nur Mitarbeiter des Dating-Projekts Zugriff auf die Daten haben. Alle erhobenen Daten werden mindestens 10 Jahre gespeichert und ausschließlich für wissenschaftliche Zwecke (inkl. wissenschaftlicher Publikationen) verwendet. Alle Auswertungen und Präsentationen der Ergebnisse geschehen in anonymisierter Form, d.h. ohne dass Deine Daten Deiner Person zugeordnet werden können.

Du hast bis 12 Monate nach Abschluss der Studie die Möglichkeit, die Löschung aller Deiner Daten bei uns zu beantragen (Kontaktaten: siehe oben). Hierfür benötigst Du lediglich Dein persönliches Codewort, das Du gleich erzeugen wirst.

Ich habe die obigen Informationen vollständig gelesen und verstanden und habe momentan keine Fragen mehr zu dieser Studie. Mit der beschriebenen Handhabung der erhobenen Daten bin ich einverstanden. Ich hatte genug Zeit für eine Entscheidung und bin bereit, am folgenden Online-Fragebogen teilzunehmen:

Ja, ich möchte den Online-Fragebogen ausfüllen.

General Instruction_English

If you have any questions or concern, you can always contact us by sending an e-mail to [e-mail address] or phone [telephone number] (weekdays from 9am to 6pm).

Participation in this study is voluntary. You can disconfirm your agreement for participating in the study anytime without giving reasons, no disadvantages for you will occur from that.

Privacy and anonymity

Needless to say, this project is subject to strict privacy conditions. The elicitation of the data will take place anonymously, meaning you won't be asked for your name at any time. We will save your data as your personal code word instead, which you will generate with a rule in the beginning of the questionnaire. No one except you knows it. Your given telephone number and e-mail address will be saved separately from the other data in a different list and will only be used to contact you. This list will only be accessible to our project employees. It will be stored in a locker and destroyed after the elicitation. The employees who dispose of your personal data through direct contact are subject to secrecy.

The data collected online will be transferred to a secure server in code, so only employees of the project will have access to them. All collected data will be saved for at least 10 years and only used for research purposes (incl. scientific papers). All analyses and presentations of the results will be done in anonymized form, so they cannot be associated to you.

You have the possibility to request the deletion of all of your data until up to 12 months after the study is completed (for contact information see above). For this purpose, you only need your personal code word you will generate soon.

I have completely read and understood the information above and do not have any further questions about this study so far. I agree to the described handling of the data. I had enough time to make a decision and I am ready to participate in the following questionnaire:

Yes, I want to answer the online questionnaire.

Variable Name	Description German	English	Response Format German	English
id	Versuchspersonennummer	participant ID	nach Abschluss der Datenerhebung zugewiesen (entspricht nicht der Vp-Nummer, die während der Studie benutzt wurde)	assigned after data collection (does not equal IDs used during the study)

All variables collected in the pre-event online questionnaire are labelled with the prefix p_.

DEMOGRAPHICS

All variables collected in the pre-event online questionnaire are labelled with the prefix p_.

PERSONAL CODE

The personal code has been removed from data to protect participants' anonymity.

General Instruction_German		General Instruction_English		
Bitte erstelle nun deinen individuellen Code, unter dem deine Daten gespeichert werden. Er ist dazu da, um deine Anonymität zu sichern und deinen Fragebogen zu einem Speeddatingtermin zuzuordnen.		Please generate your individual code, which we will use to save your data. It is meant to secure your anonymity and associate your questionnaire to your speed-dating appointment.		
Variable Name	Description German	English	Response Format German	English
	Erster Buchstabe des Vornamens deiner Mutter (z.B. "A" für "Anne")	First letter of your mother's first name (e.g., "A" for "Anne")	Freies Feld	empty field
	Letzter Buchstabe des Vornamens deines Vaters (z.B. "D" für "Richard")	Last letter of your father's first name (e.g., "D" for "Richard")	Freies Feld	empty field
	Dein Geburtsmonat als zweistellige Zahl (z.B. "04" für "April")	Your month of birth as a two-digit number (e.g., "04" for "April")	Freies Feld	empty field
	Die zwei Anfangsbuchstaben der Stadt, in der Du geboren wurdest (z.B. "MU" für "Muenster")	First two letters of the city you were born in (e.g., "MU" for "Muenster")	Freies Feld	empty field

All variables collected in the pre-event online questionnaire are labelled with the prefix p_.

PERSONALITY TRAITS AND ATTITUDES

General Instruction_German

Im Folgenden geht es um deine persönlichen Eigenschaften und Einstellungen. Für den gesamten Fragebogen gilt: Es gibt keine „richtigen“ oder „falschen“ Antworten. Wenn Du das Gefühl hast, zu einer Frage oder Aussage keine genaue Antwort zu haben, bitten wir dich darum, so zu antworten, wie es deiner subjektiven Einschätzung nach am ehesten zutreffen würde. Bitte wundere dich nicht, falls es dir einmal so vorkommt, als ob wir dir zu einem Aspekt mehrere inhaltlich sehr ähnliche Fragen stellen. Dies ist beabsichtigt und dient uns dazu, ein besseres und facettenreicheres Bild zu erhalten. Wir bitten dich, nach Möglichkeit alle Aussagen und Fragen zu bearbeiten - wenn Du einmal etwas übersehen hast, wirst Du zur Unterstützung darauf hingewiesen. Bitte versuche nicht, im Fragebogen auf die vorherige Seite zurückzuspringen.

General Instruction_English

The following is about your personal traits and attitudes. As a general rule: There are no right or wrong answers. If you have the feeling that you cannot answer a question or statement well, please answer in the way it mostly applies in your subjective estimation. Please do not wonder that sometimes it feels like we ask you some substantially similar questions about one aspect. We do that on purpose and it's meant to give us a better and more detailed idea. We would kindly ask you to answer each question - if you should miss one question, we will remind you to answer it. Please don't try to return to the previous page.

All variables collected in the pre-event online questionnaire are labelled with the prefix p_.

BIG FIVE

General Instruction_German			General Instruction_English	
Die folgenden Aussagen beziehen sich darauf, wie Du dich in emotional bedeutsamen Partnerschaften fühlst. Von Interesse ist dabei vor allem, wie Du im Allgemeinen Partnerschaften erlebt hast und zukünftig erwartest.			The following statements refer to the way you feel in emotionally meaningful relationships. It is of special interest how you generally experienced relationships and expect them in future.	
Variable Name	Description German	English	Response Format German	English
p_attachment_1	Ich habe Angst, die Liebe meines Partners/meiner Partnerin zu verlieren.	I'm afraid that I will lose my partner's love.	Ratingskala: 1 (stimme gar nicht zu) bis 7 (stimme völlig zu)	Rating scale: 1 (I strongly disagree) to 7 (I strongly agree)
p_attachment_2	Ich mache mir oft Sorgen, dass mein Partner/meine Partnerin nicht bei mir bleiben will.	I often worry that my partner will not want to stay with me.	Ratingskala: 1 (stimme gar nicht zu) bis 7 (stimme völlig zu)	Rating scale: 1 (I strongly disagree) to 7 (I strongly agree)
p_attachment_3	Ich fühle mich wohl damit, meine privaten Gedanken und Gefühle mit meinem Partner/meiner Partnerin zu teilen.	I feel comfortable sharing my private thoughts and feelings with my partner.	Ratingskala: 1 (stimme gar nicht zu) bis 7 (stimme völlig zu)	Rating scale: 1 (I strongly disagree) to 7 (I strongly agree)
p_attachment_4	Es fällt mir leicht, mich auf meinen Partner/meine Partnerin zu verlassen.	I find it easy to depend on romantic partners.	Ratingskala: 1 (stimme gar nicht zu) bis 7 (stimme völlig zu)	Rating scale: 1 (I strongly disagree) to 7 (I strongly agree)
p_attachment_5	Ich befürchte, dass ich meinem Partner/meiner Partnerin weniger bedeute, als er/sie mir.	I worry that romantic partners won't care about me as much as I care about them.	Ratingskala: 1 (stimme gar nicht zu) bis 7 (stimme völlig zu)	Rating scale: 1 (I strongly disagree) to 7 (I strongly agree)
p_attachment_6	Ich ziehe es vor, meinem Partner/meiner Partnerin nicht nahe zu sein.	I prefer not to be too close to romantic partners.	Ratingskala: 1 (stimme gar nicht zu) bis 7 (stimme völlig zu)	Rating scale: 1 (I strongly disagree) to 7 (I strongly agree)
p_attachment_7	Mir wird unwohl, wenn ein Partner/eine Partnerin mir sehr nahe sein will.	I get uncomfortable when a romantic partner wants to be very close.	Ratingskala: 1 (stimme gar nicht zu) bis 7 (stimme völlig zu)	Rating scale: 1 (I strongly disagree) to 7 (I strongly agree)

All variables collected in the pre-event online questionnaire are labelled with the prefix p_.

Variable Name	Description German	English	Response Format German	English
p_attachment_8	Ich habe den Eindruck, dass mein Partner/meine Partnerin nicht so viel Nähe möchte wie ich.	I find that my partner(s) do not want to get as close as I would like.	Ratingskala: 1 (stimme gar nicht zu) bis 7 (stimme völlig zu)	Rating scale: 1 (I strongly disagree) to 7 (I strongly agree)
p_attachment_9	Ich bespreche vieles mit meinem Partner/meiner Partnerin.	I talk things over with my partner.	Ratingskala: 1 (stimme gar nicht zu) bis 7 (stimme völlig zu)	Rating scale: 1 (I strongly disagree) to 7 (I strongly agree)
p_attachment_10	Ich habe Angst, dass sobald ein Partner/eine Partnerin mich näher kennen lernt, er/sie mich nicht so mag, wie ich wirklich bin.	I'm afraid that once a romantic partner gets to know me, he or she won't like who I really am.	Ratingskala: 1 (stimme gar nicht zu) bis 7 (stimme völlig zu)	Rating scale: 1 (I strongly disagree) to 7 (I strongly agree)
p_attachment_11	Es macht mich wütend, dass ich von meinem Partner/meiner Partnerin nicht die Zuneigung und Unterstützung bekomme, die ich brauche.	It makes me mad that I do not get the affection and support I need from my partner.	Ratingskala: 1 (stimme gar nicht zu) bis 7 (stimme völlig zu)	Rating scale: 1 (I strongly disagree) to 7 (I strongly agree)
p_attachment_12	Es fällt mir leicht, meinem Partner/meiner Partnerin gegenüber liebevoll zu sein.	It's easy for me to be affectionate with my partner.	Ratingskala: 1 (stimme gar nicht zu) bis 7 (stimme völlig zu)	Rating scale: 1 (I strongly disagree) to 7 (I strongly agree)

Im Folgenden geht es um deine Einstellungen und Erfahrungen im Bereich Sexualleben. Bitte beantworte auch die folgenden Fragen wahrheitsgetreu. deine Angaben sind natürlich wie alle anderen auch vollständig anonym. Da die folgenden Fragen etwas intimer sind als die vorherigen, kannst Du auch ausnahmsweise die Option auswählen keine Angabe zu machen, wenn Du eine Frage nicht beantworten möchtest.			The following questions regard your attitudes and experiences in the field of sex life. Please answer the following questions truthfully. Your details are, of course, like all others completely anonymous. Since the following questions are a little more intimate than the previous ones, you can exceptionally choose the option to make no comment if you do not want to answer a question.	
Variable Name	Description German	English	Response Format German	English
p_soi_r_1	Mit wie vielen verschiedenen Personen hattest Du in den letzten 12 Monaten Geschlechtsverkehr?	With how many different partners have you had sex within the past 12 months?	Einfachauswahl: 1 (0), 2 (1), 3 (2), 4 (3), 5 (4), 6 (5-6), 7 (7-9), 8 (10-19), 9 (20 oder mehr), 10 (Ich möchte keine Angabe machen.)	Forced choice: 1 (0), 2 (1), 3 (2), 4 (3), 5 (4), 6 (5-6), 7 (7-9), 8 (10-19), 9 (20 or more), 10 (I do not want to provide a response.)
p_soi_r_2	Mit wie vielen verschiedenen Personen hattest Du in deinem Leben nur einmal Geschlechtsverkehr?	With how many different partners have you had sexual intercourse on one and only one occasion?	Einfachauswahl: 1 (0), 2 (1), 3 (2), 4 (3), 5 (4), 6 (5-6), 7 (7-9), 8 (10-19), 9 (20 oder mehr), 10 (Ich möchte keine Angabe machen.)	Forced choice: 1 (0), 2 (1), 3 (2), 4 (3), 5 (4), 6 (5-6), 7 (7-9), 8 (10-19), 9 (20 or more), 10 (I do not want to provide a response.)
p_soi_r_3	Mit wie vielen verschiedenen Personen hattest Du schon Geschlechtsverkehr, ohne dabei ein Interesse an einer längerfristigen Beziehung mit dieser Person zu haben?	With how many different persons have you had sexual intercourse without having an interest in a long-term committed relationship with this person?	Einfachauswahl: 1 (0), 2 (1), 3 (2), 4 (3), 5 (4), 6 (5-6), 7 (7-9), 8 (10-19), 9 (20 oder mehr), 10 (Ich möchte keine Angabe machen.)	Forced choice: 1 (0), 2 (1), 3 (2), 4 (3), 5 (4), 6 (5-6), 7 (7-9), 8 (10-19), 9 (20 or more), 10 (I do not want to provide a response.)
p_soi_r_4	Sex ohne Liebe ist OK.	Sex without love is OK.	Ratingskala: 1 (Ich stimme überhaupt nicht zu) bis 9 (Ich stimme völlig zu), 10 (Ich möchte keine Angabe machen.)	Rating scale: 1 (I strongly disagree) to 9 (I strongly agree), 10 (I do not want to provide a response.)
p_soi_r_5	Ich könnte mir vorstellen, dass ich "unverbindlichen" Sex mit verschiedenen Personen genieße und mich dabei wohl fühle.	I can imagine myself being comfortable and enjoying "casual" sex with different partners.	Ratingskala: 1 (Ich stimme überhaupt nicht zu) bis 9 (Ich stimme völlig zu), 10 (Ich möchte keine Angabe machen.)	Rating scale: 1 (I strongly disagree) to 9 (I strongly agree), 10 (I do not want to provide a response.)
p_soi_r_6	Ich möchte nicht eher Sex mit jemandem haben, solange ich mir nicht sicher bin, dass es sich um eine ernste Langzeitbeziehung handelt.	I do not want to have sex with a person until I am sure that we will have a long-term, serious relationship.	Ratingskala: 1 (Ich stimme überhaupt nicht zu) bis 9 (Ich stimme völlig zu), 10 (Ich möchte keine Angabe machen.)	Rating scale: 1 (I strongly disagree) to 9 (I strongly agree), 10 (I do not want to provide a response.)

Bitte kreuze die Antwort an, die am ehesten auf dein Leben im Allgemeinen zutrifft:			Please select the answer that mostly applies to your life in general:	
Variable Name	Description German	English	Response Format German	English
p_pid_1	Bevor ich Entscheidungen treffe, denke ich meistens erst mal gründlich nach.	Before making decisions I first think them through.	Ratingskala: 1 (stimme nicht zu) bis 5 (stimme voll zu)	Rating scale: 1 (I do not agree) to 5 (I completely agree)
p_pid_2	Ich beobachte sorgfältig meine innersten Gefühle.	I listen carefully to my deepest feelings.	Ratingskala: 1 (stimme nicht zu) bis 5 (stimme voll zu)	Rating scale: 1 (I do not agree) to 5 (I completely agree)
p_pid_3	Bevor ich Entscheidungen treffe, denke ich meistens erst mal über meine Ziele nach, die ich erreichen will.	Before making decisions I usually think about the goals I want to achieve.	Ratingskala: 1 (stimme nicht zu) bis 5 (stimme voll zu)	Rating scale: 1 (I do not agree) to 5 (I completely agree)
p_pid_4	Bei den meisten Entscheidungen ist es sinnvoll, sich ganz auf sein Gefühl zu verlassen.	With most decisions it makes sense to completely rely on your feelings.	Ratingskala: 1 (stimme nicht zu) bis 5 (stimme voll zu)	Rating scale: 1 (I do not agree) to 5 (I completely agree)
p_pid_5	Ich mag Situationen nicht, in denen ich mich auf meine Intuition verlassen muss.	I don't like situations that require me to rely on my intuition.	Ratingskala: 1 (stimme nicht zu) bis 5 (stimme voll zu)	Rating scale: 1 (I do not agree) to 5 (I completely agree)
p_pid_6	Ich denke über mich nach.	I think about myself.	Ratingskala: 1 (stimme nicht zu) bis 5 (stimme voll zu)	Rating scale: 1 (I do not agree) to 5 (I completely agree)
p_pid_7	Ich schmiede lieber ausgefeilte Pläne, als etwas dem Zufall zu überlassen.	I prefer making detailed plans rather than leaving things to chance.	Ratingskala: 1 (stimme nicht zu) bis 5 (stimme voll zu)	Rating scale: 1 (I do not agree) to 5 (I completely agree)
p_pid_8	Ich ziehe Schlussfolgerungen lieber aufgrund meiner Gefühle, Menschenkenntnis und Lebenserfahrung.	I prefer drawing conclusions based on my feelings, my knowledge of human nature, and my experience of life.	Ratingskala: 1 (stimme nicht zu) bis 5 (stimme voll zu)	Rating scale: 1 (I do not agree) to 5 (I completely agree)
p_pid_9	Bei meinen Entscheidungen spielen Gefühle eine große Rolle.	My feelings play an important role in my decisions.	Ratingskala: 1 (stimme nicht zu) bis 5 (stimme voll zu)	Rating scale: 1 (I do not agree) to 5 (I completely agree)

All variables collected in the pre-event online questionnaire are labelled with the prefix p_.

Variable Name	Description German	English	Response Format German	English
p_pid_10	Ich bin perfektionistisch.	I am a perfectionist.	Ratingskala: 1 (stimme nicht zu) bis 5 (stimme voll zu)	Rating scale: 1 (I do not agree) to 5 (I completely agree)
p_pid_11	Wenn ich eine Entscheidung rechtfertigen muss, denke ich vorher besonders gründlich nach.	I think about a decision particularly carefully if I have to justify it.	Ratingskala: 1 (stimme nicht zu) bis 5 (stimme voll zu)	Rating scale: 1 (I do not agree) to 5 (I completely agree)
p_pid_12	Wenn es darum geht, ob ich anderen vertrauen soll, entscheide ich aus dem Bauch heraus.	When it comes to trusting people, I can usually rely on my gut feelings.	Ratingskala: 1 (stimme nicht zu) bis 5 (stimme voll zu)	Rating scale: 1 (I do not agree) to 5 (I completely agree)
p_pid_13	Ich nehme bei einem Problem erst mal die harten Fakten und Details auseinander, bevor ich mich entscheide.	When I have a problem I first analyze the facts and details before I decide.	Ratingskala: 1 (stimme nicht zu) bis 5 (stimme voll zu)	Rating scale: 1 (I do not agree) to 5 (I completely agree)
p_pid_14	Ich denke erst nach, bevor ich handle.	I think before I act.	Ratingskala: 1 (stimme nicht zu) bis 5 (stimme voll zu)	Rating scale: 1 (I do not agree) to 5 (I completely agree)
p_pid_15	Ich mag lieber gefühlsbetonte Personen.	I prefer emotional people.	Ratingskala: 1 (stimme nicht zu) bis 5 (stimme voll zu)	Rating scale: 1 (I do not agree) to 5 (I completely agree)
p_pid_16	Ich denke über meine Pläne und Ziele stärker nach als andere Menschen.	I think more about my plans and goals than other people do.	Ratingskala: 1 (stimme nicht zu) bis 5 (stimme voll zu)	Rating scale: 1 (I do not agree) to 5 (I completely agree)
p_pid_17	Wenn alle möglichen Alternativen gleich gut sind, entscheide ich mich meistens für die, die mir gefühlsmäßig am meisten zusagt.	When all possible alternatives are equally good, I usually decide for the one that emotionally attracts me the most.	Ratingskala: 1 (stimme nicht zu) bis 5 (stimme voll zu)	Rating scale: 1 (I do not agree) to 5 (I completely agree)
p_pid_18	Ich bin ein sehr intuitiver Mensch.	I am a very intuitive person.	Ratingskala: 1 (stimme nicht zu) bis 5 (stimme voll zu)	Rating scale: 1 (I do not agree) to 5 (I completely agree)
p_pid_19	Ich mag emotionale Situationen, Diskussionen und Filme.	I like emotional situations, discussions, and movies.	Ratingskala: 1 (stimme nicht zu) bis 5 (stimme voll zu)	Rating scale: 1 (I do not agree) to 5 (I completely agree)

Wie sehr treffen die folgenden Aussagen auf dich zu?			How much do the following statements apply to you?	
Variable Name	Description German	English	Response Format German	English
p_matevalue_1	Personen des anderen Geschlechts, die ich mag, mögen mich in der Regel auch.	Members of the opposite sex that I like, tend to like me back.	Ratingskala: 1 (trifft überhaupt nicht zu) bis 7 (trifft voll und ganz zu)	Rating scale: 1 (not agree at all) to 7 (agree completely)
p_matevalue_2	Personen des anderen Geschlechts bemerken mich.	Members of the opposite sex notice me.	Ratingskala: 1 (trifft überhaupt nicht zu) bis 7 (trifft voll und ganz zu)	Rating scale: 1 (not agree at all) to 7 (agree completely)
p_matevalue_3	Ich bekomme viele Komplimente von Personen des anderen Geschlechts.	I receive many compliments from members of the opposite sex.	Ratingskala: 1 (trifft überhaupt nicht zu) bis 7 (trifft voll und ganz zu)	Rating scale: 1 (not agree at all) to 7 (agree completely)
p_matevalue_4	Personen des anderen Geschlechts fühlen sich zu mir hingezogen.	Members of the opposite sex are attracted to me.	Ratingskala: 1 (trifft überhaupt nicht zu) bis 7 (trifft voll und ganz zu)	Rating scale: 1 (not agree at all) to 7 (agree completely)
p_matevalue_5	Ich kann so viele Sexualpartner bekommen, wie ich möchte.	I can have as many sexual partners as I choose.	Ratingskala: 1 (trifft überhaupt nicht zu) bis 7 (trifft voll und ganz zu)	Rating scale: 1 (not agree at all) to 7 (agree completely)
p_matevalue_6	Ich bekomme von Personen des anderen Geschlechts nur selten Komplimente.	I do not receive many compliments from members of the opposite sex.	Ratingskala: 1 (trifft überhaupt nicht zu) bis 7 (trifft voll und ganz zu)	Rating scale: 1 (not agree at all) to 7 (agree completely)
p_matevalue_7	Ich bin erfolgreich beim anderen Geschlecht.	I am successful when it comes to persons of the other sex.	Ratingskala: 1 (trifft überhaupt nicht zu) bis 7 (trifft voll und ganz zu)	Rating scale: 1 (not agree at all) to 7 (agree completely)
p_matevalue_8	Ich bin ein begehrenswerter Partner für eine feste, langfristige Beziehung.	I am a desirable mate for a solid, long-term relationship.	Ratingskala: 1 (trifft überhaupt nicht zu) bis 7 (trifft voll und ganz zu)	Rating scale: 1 (not agree at all) to 7 (agree completely)
p_matevalue_9	Ich bin ein begehrenswerter Partner für eine sexuelle Affäre oder einen One-Night- Stand.	I am a desirable mate for a sexual affair or a one-night-stand.	Ratingskala: 1 (trifft überhaupt nicht zu) bis 7 (trifft voll und ganz zu)	Rating scale: 1 (not agree at all) to 7 (agree completely)

All variables collected in the pre-event online questionnaire are labelled with the prefix p_.

Variable Name	Description		Response Format	
	German	English	German	English
p_matevalue_10	Es ist leicht für mich Personen des anderen Geschlechts kennenzulernen.	Getting to know opposite sex persons is easy for me.	Ratingskala: 1 (trifft überhaupt nicht zu) bis 7 (trifft voll und ganz zu)	Rating scale: 1 (not agree at all) to 7 (agree completely)

All variables collected in the pre-event online questionnaire are labelled with the prefix p_.

COMMUNAL & EXCHANGE NORMS

Items adapted from **Idealization of communal and exchange norms**: Clark, M. S., Lemay, E. J., Graham, S. M., Pataki, S. P., & Finkel, E. J. (2010). Ways of giving benefits in marriage: Norm use, relationship satisfaction, and attachment-related variability. *Psychological Science*, 21(7), 944-951. doi:10.1177/0956797610373882

General Instruction_German		General Instruction_English		
Im Folgenden stellen wir dir 2 verschiedene "Modelle" vor, wie Partnerschaft funktionieren kann. Bitte lies die Beschreibungen aufmerksam durch und gib dann an, wie sehr diese Modelle mit deiner eigenen Einstellung zu Partnerschaft übereinstimmen.		On the following pages we will present you two models for how relationships can work. Please read the descriptions carefully and state how much these models match your own attitude towards relationships.		
Variable Name	Description German	English	Response Format German	English
p_comm_norm	Die Art, wie Partnerschaft idealerweise funktionieren sollte, ist dass jede Person auf die Bedürfnisse der anderen Person achtet. Jeder sollte die andere Person entsprechend deren Bedürfnissen unterstützen, wenn die andere Person ein Bedürfnis hat, welches diese nicht selbst erfüllen kann. Jede Person sollte dies so gut sie kann tun, so lange die persönlichen Kosten hierfür vertretbar sind. Wenn eine Person etwas für die andere tut, sollte die andere Person dem „Geber“ nichts schulden. Meiner Ansicht nach ist dies die Art, wie Partnerschaft idealerweise funktionieren sollte:	The way romantic relationships should operate is that each person should pay attention to the other person's needs. Each person should give a benefit to the other in response to the other's needs when the other has a real need that he or she cannot meet by him- or herself. Each person should do this to the best of his or her ability so long as the personal costs are reasonable. When one person does something for the other, the other should not owe the giver anything. I believe that this is the way romantic relationships ideally should operate:	Ratingskala: 1 (trifft überhaupt nicht zu) bis 7 (trifft vollkommen zu)	Rating scale: 1 (strongly disagree) to 7 (strongly agree)

All variables collected in the pre-event online questionnaire are labelled with the prefix p_.

Variable Name	Description		Response Format	
	German	English	German	English
p_exch_norm	Die Art, wie Partnerschaft idealerweise funktionieren sollte, ist dass jede Person die andere mit der Erwartung Unterstützung geben sollte, dass sie eine Unterstützung von ähnlichem Wert zurückbekommt. Nachdem man eine Unterstützung erhalten hat, sollte man sich verpflichtet fühlen, der anderen Person eine Unterstützung von ähnlichem Wert zukommen zu lassen. Die Personen sollten gegebene und erhaltene Unterstützungen im Blick haben um sie in einem ausgewogenen Verhältnis zu halten. Meiner Ansicht nach ist dies die Art, wie Partnerschaft idealerweise funktionieren sollte:	The way romantic relationships ideally should operate is that each person should benefit the other with the expectation of receiving a benefit of similar value in return. After receiving a benefit, members should feel obligated to give the other a benefit of comparable value. Members of the relationship ought to keep track of benefits given and received in order to keep them in balance. I believe that this is the way romantic relationships ideally should operate:	Ratingskala: 1 (trifft überhaupt nicht zu) bis 7 (trifft vollkommen zu)	Rating scale: 1 (strongly disagree) to 7 (strongly agree)

All variables collected in the pre-event online questionnaire are labelled with the prefix p_.

SELF-CONCEPT

SAQ_1-7 and SAQ_9: Items selected from the **Self-Attributes Questionnaire (SAQ)**: Pelham, B. W., & Swann, W. B. (1989). From self-conceptions to self-worth: On the sources and structure of global self-esteem. *Journal of Personality and Social Psychology*, 57(4), 672-680. doi:10.1037/0022-3514.57.4.672

All further SAQ items were generated and added to measure the self-concept of physical attractiveness, cognitive ability, and of interpersonal circumplex traits.

General Instruction_German			General Instruction_English	
<p>In folgenden Fragebogen geht es um deine Einstellungen zu einigen deiner Fähigkeiten und Eigenschaften im Vergleich zu anderen Personen deines Alters. Benutze dabei die folgende Skala:</p> <p>unterste 5 % untere 10 % untere 20 % untere 30 % untere 50 % obere 50 % obere 30 % obere 20 % obere 10 % oberste 5 %</p> <p>Hier ein Beispiel wie die Skala funktioniert: Wenn eine der Eigenschaften, die folgen, Körpergröße ist, würde eine Person, die knapp unter dem Durchschnitt ihrer Altersgenossen liegt, untere 50 % auswählen. Eine Person, die größer ist als 80 % (aber nicht größer als 90 %) würde obere 20 % auswählen und damit angeben, dass sie bezüglich dieser Dimension zu den Top 20 % gehört.</p>			<p>The following questionnaire is about your attitudes about some of your skills and qualities in comparison to other persons of your age. Use the following scale:</p> <p>bottom 5% lower 10% lower 20% lower 30% lower 50% upper 50% upper 30% upper 20% upper 10% upper 5%</p> <p>An example of the way the scale works is as follows: If one of the traits that follows were "height", a person who is just below average height would choose "lower 50%" for this question, whereas a person who is taller than 80% (but not taller than 90%) of women her age would mark "upper 20%", indicating that she is in the top 20% on this dimension.</p>	
Variable Name	Description German	English	Response Format German	English

DATING-SPECIFIC REJECTION SENSITIVITY

Items selected and adapted from the **Rejection Sensitivity Questionnaire (RSQ)**: Downey, G., & Feldman, S. I. (1996). Implications of rejection sensitivity for intimate relationships. *Journal of Personality and Social Psychology*, 70(6), 1327.

For each situation we additionally asked, how mad or upset the subject would be about rejection in the specific situation.

General Instruction_German			General Instruction_English	
Nun bitten wir dich, dich in eine Reihe von Situationen hineinzusetzen. Falls Du eine der geschilderten Situationen noch nicht erlebt haben solltest, versuche bitte, dir vorzustellen, was Du in einer solchen Situation erwarten und wie Du reagieren würdest.			Now we ask you to put yourself into a series of situations. If you haven't experienced one of the given situations, please try to imagine what you would expect in such a situation and how you would react.	
1. Du fragst eine Person des anderen Geschlechts, die Du kaum kennst, ob sie mit dir ausgehen möchte.			1. You ask someone you do not know well out on a date.	
Variable Name	Description German	English	Response Format German	English
p_reject_sens_1	Ich würde erwarten, dass die Person mit mir ausgehen möchte.	I would expect that the person would like to go on a date with me.	Ratingskala: (1) sehr unwahrscheinlich bis (7) sehr wahrscheinlich	Rating scale: (1) very unlikely to (7) very likely
p_reject_sens_2	Wie besorgt oder ängstlich wärst Du, ob die Person mit dir ausgehen möchte?	How concerned or anxious would you be over whether the person wants to go on a date with you?	Ratingskala: (1) sehr unbesorgt bis (7) sehr besorgt	Rating scale: (1) very unconcerned to (7) very concerned
p_reject_sens_3	Wie verärgert oder wütend wärst Du, wenn die Person ablehnen würde?	How upset or mad would you be if the person rejected you?	Ratingskala: (1) überhaupt nicht verärgert bis (7) sehr verärgert	Rating scale: (1) not upset at all to (7) very upset
2. Du fragst eine Person des anderen Geschlechts, ob sie mit dir einen Kaffee trinken möchte.			2. You ask a person of the other sex to coffee.	
p_reject_sens_4	Ich würde erwarten, dass die Person mit mir einen Kaffee trinken gehen möchte.	I would expect that the person would like to go for a coffee with me.	Ratingskala: (1) sehr unwahrscheinlich bis (7) sehr wahrscheinlich	Rating scale: (1) very unlikely to (7) very likely
p_reject_sens_5	Wie besorgt oder ängstlich wärst Du, ob diese Person mit dir einen Kaffee trinken gehen möchte?	How concerned or anxious would you be over whether the person wants to go for a coffee with you?	Ratingskala: (1) sehr unbesorgt bis (7) sehr besorgt	Rating scale: (1) very unconcerned to (7) very concerned

PARTNER PREFERENCES: TRAIT IMPORTANCE

Self-generated item list based on extensive piloting and on the basis of:

Buss, D. M., Shackelford, T. K., Kirkpatrick, L. A., & Larsen, R. J. (2001). A half century of mate preferences: The cultural evolution of values. *Journal of Marriage and Family*, 63(2), 491-503.

Fletcher, G. O., Simpson, J. A., Thomas, G., & Giles, L. (1999). Ideals in intimate relationships. *Journal of Personality and Social Psychology*, 76(1), 72-89.

(Further details on the selection of the items can be obtained from Stefanie Wurst [stefanie.wurst@wwu.de])

General Instruction_German			General Instruction_English	
Bei der Suche nach einem Langzeitpartner wirst Du in der Regel nicht den eben von dir beschriebenen Traumpartner finden, sondern wirst unter Umständen auf einige der gewünschten Eigenschaften verzichten müssen. Welche Rolle spielt es für dich bei den einzelnen Merkmalen, dass ein realer Partner für eine feste, langfristige Beziehung die von dir eben angegebene ideale Merkmalsausprägung tatsächlich aufweist? Wenn Du z.B. eine attraktive Stimme bei einem Partner zwar idealerweise toll findest, dir diese Eigenschaft aber bei einem realen Partner total egal ist und Du auch eine Beziehung mit einer Person mit unattraktiver Stimme eingehen würdest, dann kreuze bitte Antwortalternative 1 "spielt überhaupt keine Rolle" an. Wenn Du dagegen eine attraktive Stimme bei einem Partner toll findest und eine Beziehung NUR mit einer Person eingehst, die tatsächlich auch eine sehr attraktive Stimme hat, dann kreuze bitte Antwortalternative 7 "spielt eine große Rolle" an.			When searching for a long-term mate you usually won't find the dream partner you just described but in some circumstances will have to relinquish some requested traits. How much does it matter to you that a real partner for a committed long-term relationship actually fulfills the ideal characteristics you just stated for each trait? For example if you ideally like an attractive voice in a partner but this characteristic doesn't matter to you at all in a real partner and you would also enter a relationship with a person who has an unattractive voice, then please tick alternative 1 "doesn't matter at all". By contrast, if you really like an attractive voice in a partner and would only enter a relationship with a person who actually has a really attractive voice, then please tick alternative 7 "matters very much".

ACHTUNG: Jetzt geht es darum, was Du glaubst, was Dein Datingpartner über Dich denkt: Mein gerade getroffener Datingpartner...			ATTENTION: The following questions are about your estimation on what your dating partner thinks about you: My last dating partner...	
Variable Name	Description German	English	Response Format German	English
d1_appeal_p	...findet mich anziehend.	... finds me appealing.	Ratingskala: 1 (trifft überhaupt nicht zu) bis 7 (trifft voll und ganz zu)	Rating scale: 1 (not agree at all) to 7 (agree completely)
d1_goodfit_p	...glaubt, wir passen gut zueinander.	... thinks we are a good fit.	Ratingskala: 1 (trifft überhaupt nicht zu) bis 7 (trifft voll und ganz zu)	Rating scale: 1 (not agree at all) to 7 (agree completely)
d1_likable_p	...findet mich sympathisch.	... finds me likable.	Ratingskala: 1 (trifft überhaupt nicht zu) bis 7 (trifft voll und ganz zu)	Rating scale: 1 (not agree at all) to 7 (agree completely)
d1_interesting_p	...findet mich interessant.	... finds me interesting.	Ratingskala: 1 (trifft überhaupt nicht zu) bis 7 (trifft voll und ganz zu)	Rating scale: 1 (not agree at all) to 7 (agree completely)
d1_sexattract_p	...fühlt sich sexuell zu mir hingezogen.	... feels sexually attracted to me.	Ratingskala: 1 (trifft überhaupt nicht zu) bis 7 (trifft voll und ganz zu)	Rating scale: 1 (not agree at all) to 7 (agree completely)
d1_st_p	Ich käme für diese Person potentiell als Partner für einen One-Night-Stand oder eine sexuelle Affäre in Frage.	I would be a possible partner for a one-night stand or a sexual affair for this person.	Ratingskala: 1 (trifft überhaupt nicht zu) bis 7 (trifft voll und ganz zu)	Rating scale: 1 (not agree at all) to 7 (agree completely)
d1_lt_p	Ich käme für diese Person potentiell als Partner für eine feste, langfristige Beziehung in Frage.	I would be a possible partner for a permanent, long-term relationship for this person.	Ratingskala: 1 (trifft überhaupt nicht zu) bis 7 (trifft voll und ganz zu)	Rating scale: 1 (not agree at all) to 7 (agree completely)
d1_furtherdate_p	Diese Person ist an einem weiteren Date mit mir interessiert.	This person is interested in another date with me.	Ratingskala: 1 (trifft überhaupt nicht zu) bis 7 (trifft voll und ganz zu)	Rating scale: 1 (not agree at all) to 7 (agree completely)
d1_gettoknow_p	Diese Person möchte mich näher kennenlernen.	This person wants to get to know me better.	Ratingskala: 1 (trifft überhaupt nicht zu) bis 7 (trifft voll und ganz zu)	Rating scale: 1 (not agree at all) to 7 (agree completely)
d1_furtherdate_difficult_p	Ich glaube, es wäre schwierig für mich, ein weiteres Date mit dieser Person zu bekommen.	I think it would be difficult for me to get another date with this person.	Ratingskala: 1 (trifft überhaupt nicht zu) bis 7 (trifft voll und ganz zu)	Rating scale: 1 (not agree at all) to 7 (agree completely)

All variables collected in the Post-Date Computer Questionnaire are labelled with the prefixes d1_ to d5_ indicating the date number for the respective participant.

Variable Name	Description	English	Response Format	English
	German		German	
d1_yes_p	Diese Person möchte mit mir Kontaktdaten austauschen.	This person wants to exchange personal data with me.	Einfachauswahl: (1) ja (0) nein	Forced choice: (1) ja (0) nein

All variables collected in the Post-Date Computer Questionnaire are labelled with the prefixes d1_ to d5_ indicating the date number for the respective participant.

OPEN QUESTIONS

Variable Name	Description German	English	Response Format German	English
d1_decision_influence*	Was hat Deine Entscheidung für oder gegen die Person am stärksten beeinflusst?	What was the greatest influence on your decision for or against this person?	freies Feld (Stichpunkte reicht)	empty field (bullet-points would be sufficient)
d1_attention_attract*	An der Person ist mir außerdem positiv/negativ aufgefallen:	These aspects of the person attracted my attention in a positive/negative way:	freies Feld (Stichpunkte reicht)	empty field (bullet-points would be sufficient)

MATCH

Variable Name	Description German	English	Response Format German	English
d1_match	Variable gibt an, ob beide Datingpartner angaben, ihre Kontaktdaten austauschen zu wollen.	Variable indicates whether the dating partners mutually expressed the wish to exchange personal data.	(1) Match; (0) Kein Match	(1) match; (0) no match

* All variables labelled with * are not included in the data frame on OpenScience to make sure participants cannot find their own data.

All variables collected in the Post-Date Computer Questionnaire are labelled with the prefixes d1_ to d5_ indicating the date number for the respective participant.

MATE VALUE STATE

Variable Name	Description		Response Format	
	German	English	German	English
e_matevalue_state	Momentan fühle ich mich als begehrenswerter Dating-Partner.	Right now, I feel I am a desirable dating partner.	Ratingskala: 1 (überhaupt nicht) bis 7 (sehr stark)	Rating scale: 1 (do not agree at all) to 7 (agree completely)

Every variable that was collected in the End-Of-Event Computer Questionnaire is labelled with e_.

SELF-EVALUATION IN COMPARISON TO THE OTHER PARTICIPANTS

General Instruction_German

Bitte vergleiche Dich nun hinsichtlich der folgenden Eigenschaften mit den anderen Frauen, die heute beim Speed-Dating anwesend sind.

Ordne dazu für jede Eigenschaft alle anwesenden Frauen (inklusive Dir) in eine Rangfolge: Beginnend mit der Frau, die Deiner Meinung nach die höchste Ausprägung auf der entsprechenden Eigenschaft hat, und endend mit der Frau, die Deiner Meinung nach die niedrigste Ausprägung auf der entsprechenden Eigenschaft hat. Gib dann bitte den Platz in der Rangreihe an, den Du einnimmst.

Hier ein Beispiel: Wenn Du einschätzen sollst, wie sympathisch Du im Vergleich zu den anderen anwesenden Frauen bist, dann bedeutet „Platz 1“, dass Du Dich für die Sympathischste unter den heute hier anwesenden Frauen hältst. „Platz 2“ bedeutet, dass Du Dich für die Zweitsympathischste unter den heute hier anwesenden Frauen hältst usw.

Wahrscheinlich fällt es Dir bei manchen Eigenschaften schwer, Deinen Platz in der Rangfolge einzuschätzen. Das macht nichts. Folge in diesem Fall einfach Deinem Bauchgefühl.

Es sind heute maximal 5 Frauen anwesend (Du mitgezählt). Der niedrigste Platz, den Du daher angeben kannst, ist „Platz 5“.

(Falls heute weniger als 5 Frauen anwesend sind (Du mitgezählt), verringert sich der niedrigste Platz, den Du angeben kannst. Das heißt, wenn heute insgesamt 4 Frauen anwesend sind (Du mitgezählt), ist der niedrigste Platz, den Du angeben kannst, „Platz 4“.)

Welchen Platz nimmst Du im Vergleich zu den heute anwesenden Frauen ein hinsichtlich der folgenden Eigenschaften?

General Instruction_English

Please compare yourself on the following attributes with the other women present at today's speed dating event. To do so, order for each attribute all women present (including yourself): Start with the woman who, in your opinion, has the highest expression of the respective attribute and end with the woman who, in your opinion, has the least strong expression of the respective attribute. Then please indicate your own place in this ranking.

An example: If you're rating how likable you are in comparison to the other women present, "1st place" means that you see yourself as the most likable woman of the women present at today's speed-dating. "2nd place" means that you see yourself as the second most likable woman among the women present at today's event, and so on.

It might probably not be easy for you to estimate your own place regarding some attributes. That's okay. In this case, just listen to your gut feeling.

There are a maximum of 5 women present today (including yourself). The lowest rank you can assign to yourself is therefore "5th place".

(If there should be less than 5 women present today (including yourself), the lowest rank you can assign to yourself decreases accordingly. That is, if there are a total of 4 women present today (including yourself), the lowest rank you can assign to yourself is "4th place").

Which place do you assign to yourself in comparison to the women present today on the following attributes?

Variable Name	Description		Response Format

DATA USE

General Instruction_German

Liebe/r Teilnehmer/in,

Während Deiner Dates wurdest Du wie angekündigt videografiert. Bevor Du gleich verabschiedet wirst, werden noch ein paar Fotos von Dir gemacht. Im Rahmen der Studie möchten wir gerne dieses Material zur Auswertung heranziehen. Uns interessieren dabei vor Allem eure gezeigten Verhaltensweisen (z.B. Stimmerkmale) und physische Merkmale (z.B. getragene Kleidung, Styling).

Wir möchten Dich nun bitten anzugeben, welcher Art der Verwendung Deines Videos und der Fotos Du zustimmst. Um die Daten auswerten zu können, ist es notwendig, dass sich einige wenige wissenschaftliche Mitarbeiter unserer Arbeitseinheit diese Fotos und Videos anschauen können. Natürlich wäre es toll, wenn Du darüber hinaus zustimmst, dass wir die Fotos oder Videos beispielhaft auf Konferenzen anderen Wissenschaftlern oder in Vorlesungen zeigen dürfen.

Diese Einverständniserklärung liegt in zweifacher Ausfertigung vor. Bitte fülle beide Exemplare aus. Eines davon ist für Dich zum Mitnehmen.

General Instruction_English

Dear participants,

As mentioned before, your dates were recorded on video. Before the farewell, we will take some pictures of you soon. We would like to use this photo material for the evaluation in our study. We are especially interested in your shown behavior (e.g., characteristics of your voice) and physical characteristics (e.g., the cloth you wear, styling).

Now, we would like to ask you which kind of use of your video and picture material you agree to. For analyzing the data, it is necessary that few scientific assistants of our department can take a look at the pictures and videos. Of course, it would be great if you furthermore give us the permission to show the pictures and videos as an example to other scientists at conferences or in lectures.

This declaration of consent exists in duplicate. Please fill in both copies. One of them is for you to take it along.

Variable Name	Description German	English	Response Format German	English
e_data_use_1	Ich stimme zu, dass mein Video- und Foto-Material vom zur Verschwiegenheit verpflichteten wissenschaftlichen Personal der Abteilung „Diagnostik und Persönlichkeitspsychologie“ der Universität Münster betrachtet und ausgewertet werden darf.	I agree to the observation and analysis of my video and photo material made by scientific staff of the department of “Psychological Assessment and Personality Psychology” of the university of Münster, who are subject to secrecy.	Einfachauswahl: (0) nein, (1) ja	Forced choice: (0) no, (1) yes
e_data_use_2	Ich stimme darüber hinaus zu, dass mein Video- und Foto-Material in weiteren wissenschaftlichen Untersuchungen verwendet werden darf. Alle Personen, die dabei mit meinem Material in Kontakt kommen, werden zur Verschwiegenheit verpflichtet.	Furthermore, I agree to the usage of my video and photo material for other scientific research. Every person, who comes in contact with my material, will be subject to secrecy. REGISTRATION FOR THE FOLLOW-UP SURVEYS

The participants with matches were asked to participate in this online follow-up. They received the registration link in the matchmail 3 days after their participation in the speed-dating event. After they did the registration, they were automatically invited to each follow-up via Mail.

Variable Name	Description German	English	Response Format German	English
matchmail_date*	Variable gibt das Datum an, an dem die Matchmail versendet wurde.	Variable indicates the date on which the matchmail was sent.	TT_MM_JJJJ	DD_MM_YYYY

General Instruction German	General Instruction English
<p>Liebe Teilnehmerin, lieber Teilnehmer, vielen Dank für Dein Interesse an unserer Nacherhebung zur Speed-Dating-Studie.</p> <p>Dank eurer Teilnahme an den Speed-Datings können wir schon einige bislang ungeklärte wissenschaftliche Fragen zu den Prozessen beim Dating beantworten.</p> <p>Aber was passiert nach dem ersten Date? Wovon hängt es ab, ob aus einem Speed-Dating-Match mehr wird oder ob sich der Kontakt im Sande verläuft? Jeder hat hierzu seine eigenen Theorien und Hypothesen, wissenschaftlich untersucht wurde das jedoch noch nie. Mit Deiner Teilnahme an unserer Nacherhebung hilfst Du der Wissenschaft, hier Licht ins Dunkel zu bringen.</p> <p>Wie läuft die Nacherhebung ab? Mit unserer Nacherhebung wollen wir herausfinden, wie sich der Kontakt zwischen zwei sich interessant findenden Personen im Laufe der Zeit entwickelt und verändert. Dazu fragen wir Dich zu 3 Zeitpunkten (10 Tage, 20 Tage und 40 Tage nachdem Du die Mail mit Deinen Matches erhalten hast) in jeweils einem kurzen Fragebogen nach Deinem Kontakt zu Deinem Match/Deinen Matches. Das Ausfüllen eines Fragebogens dauert dabei ca. 10-20 Minuten. Wenn Du unten auf „Ja, ich möchte an der Nacherhebung teilnehmen“ klickst, fragen wir Dich erneut nach Deiner E-Mail-Adresse. Zu den 3 genannten Zeitpunkten schicken wir Dir an diese Adresse eine E-Mail, in der wir Dich zum jeweiligen Nacherhebungsfragebogen einladen. Diese Mail enthält dann jeweils auch den Link zum Fragebogen. Du musst Dir also weder die Termine noch den Link zum Fragebogen selbst merken. Du hast – auch nach Anklicken des „Ja, ich möchte teilnehmen“-Buttons – jederzeit die Möglichkeit, die Teilnahme an der Nacherhebung abubrechen und dann keine weiteren Einladungs-mails mehr zu bekommen.</p>	<p>Dear participant, Thank you for your interest in our follow-up concerning the speed dating study.</p> <p>Due to your participation in the speed-dating study we can already answer some unresolved questions about dating processes.</p> <p>But what happens after the first date? What does it depend on whether something develops from a speed-dating match or whether the contact fizzles out? Everybody has his own theories and hypotheses about that, but there was no scientific research done on it yet. With your participation in this follow-up study you support science to bring light into the darkness here.</p> <p>What will be the procedure of the follow-up study? With our follow-up study, we want to find out, how the contact between two people interested in each other develops and changes over time. Therefore, we will ask you questions about your contact with your match/es in a short questionnaire at 3 time points (10 days, 20 days and 40 days after you received the e-mail with your matches). The completion of the questionnaire will take approximately 10-20 minutes. If you select “Yes, I want to participate in the follow-up study” at the bottom, we will ask for your e-mail address again. At the 3 time points mentioned above we will send you an invitation e-mail for participating in the follow-up to that e-mail address. This e-mail will contain a link to the questionnaire. Neither do you have to remember the dates nor the link to the questionnaire. Even after clicking on the “Yes, I want to participate in the follow-up study”-button you have the opportunity to terminate the participation and to get no further invitation e-mails.</p>

* All variables labelled with * are not included in the data frame on OpenScience to make sure participants cannot find their own data.

General Instruction German

Zeitlicher Ablauf der Nacherhebung:

Jetzt: Teilnahme-Button unten anklicken in 10 Tagen: 1. Fragebogen
in 20 Tagen: 2. Fragebogen
in 40 Tagen: 3. Fragebogen

Vergütung:

Als Dankeschön für die Teilnahme an der Nacherhebung erhältst Du eine Aufwandsentschädigung. Wieviel das ist, hängt davon ab, wie viele der 3 Fragebögen Du vollständig ausgefüllt hast:

wenn Du **nur 1 Fragebogen** ausfüllst, bekommst Du **4 €**
wenn Du **2 Fragebögen** ausfüllst, bekommst Du **8 €**
wenn Du **alle 3 Fragebögen** ausfüllst, bekommst Du **16 €**.

Außerdem werden unter den Teilnehmern, die **alle 3 Fragebögen** der Nacherhebung vollständig ausfüllen, **zusätzlich 5 x 50 €** verlost.

Zudem kannst Du (wenn Du das möchtest), nach dem Ausfüllen aller 3 Fragebögen eine **detaillierte Rückmeldung zu Deinen Partnerpräferenzen** bekommen: Was ist Dein idealer Partner? Hast Du höhere oder niedrigere Ansprüche an Deinen Partner als andere Personen Deines Geschlechts? Wie gut passen Personen des anderen Geschlechts zu Deinen Partnerwünschen?

Dein Geld kannst du nach Abschluss der Studie (ca. April 2016) entweder bequem per Überweisung von uns bekommen oder Du holst es persönlich bei uns ab. Wir kontaktieren Dich dazu nach Abschluss der Studie noch einmal.

Bei Fragen oder Anliegen kannst Du Dich jederzeit per Mail an **[E-Mail Adresse]** oder telefonisch unter der Nummer **[Telefonnummer]** (wochentags von 9-18 Uhr) bei uns melden.

Die Teilnahme an der Nacherhebung ist freiwillig. Du kannst jederzeit und ohne Angabe von Gründen Deine Einwilligung zur Teilnahme an der Nacherhebung widerrufen, ohne dass Dir daraus Nachteile entstehen.

General Instruction English

Timing of the follow-up study:

Now: click on the participation-button at the bottom in 10 days: 1. questionnaire
in 20 days: 2. questionnaire
in 40 days: 3. questionnaire

Reward:

To thank you for the participation in the follow-up study you will receive an expense allowance. The amount will depend on how many of the 3 questionnaires you complete:

if you complete **only 1 questionnaire**, you will receive **4 €**
if you complete **2 questionnaires**, you will receive **8 €**
if you complete **all 3 questionnaires**, you will receive **16 €**.

Furthermore we will additionally raffle out **5 x 50 €** among the participants who complete **all 3 questionnaires**.

Also (if you want) you can get a **detailed feedback on your partner preferences** after answering all 3 questionnaires: What is your ideal partner? Do you demand higher or lower standards of your partner than other persons of your sex? How well do people of the other sex fit your wishes for a partner?

You can either get your money comfortably via transaction or pick it up personally when the study is completed (approximately in April 2016). For that we will contact you again after the completion of the study.

If you have any questions or concerns, you can always contact us by sending an e-mail to **[e-mail address]** or calling **[telephone number]** (weekdays from 9am to 6pm).

Participation in the follow-up study is voluntary. You can disconfirm your agreement for participating in the study anytime without giving reasons. No disadvantages for you will occur from that.

General Instruction German

Datenschutz und Anonymität:

Selbstverständlich unterliegt auch diese Nachbefragung strengen Datenschutzrichtlinien. Die Erhebung der Daten erfolgt anonymisiert, d.h. an keiner Stelle wird Dein Name erfragt. Stattdessen werden Deine Daten wieder unter Deinem persönlichen Codewort gespeichert. Eine ggf. von Dir angegebene E-Mailadresse wird unabhängig von Deinen anderen Daten in einer separaten Liste gespeichert und ausschließlich zur Kontaktierung genutzt (=Einladungsmails zu den einzelnen Fragebögen, sowie nach Abschluss der Studie: Infos wann und wie Du Dein Geld bekommst und ggf. Mitteilung über Gewinn der 50 €). Die separate Liste mit den E-Mailadressen ist nur den Mitarbeitern des Dating-Projekts zugänglich. Sie wird in einem abschließbaren Schrank aufbewahrt und nach Abschluss der Gewinnverlosung vernichtet. Alle Mitarbeiter des Dating-Projekts unterliegen der Schweigepflicht. Die online erhobenen Daten werden verschlüsselt auf einen gesicherten Server übermittelt, sodass nur die Mitarbeiter des Dating-Projekts Zugriff auf die Daten haben. Alle erhobenen Daten werden mindestens 10 Jahre gespeichert und ausschließlich für wissenschaftliche Zwecke verwendet. Alle Auswertungen und Präsentationen der Ergebnisse geschehen in anonymisierter Form, d.h. ohne dass Deine Daten Deiner Person zugeordnet werden können.

Du hast bis 12 Monate nach Abschluss der Studie die Möglichkeit, die Löschung aller Deiner Daten bei uns zu beantragen (Kontaktaten: siehe Seitenende). Hierfür benötigst Du lediglich Dein persönliches Codewort.

Hier nochmal zur Erinnerung die Anleitung, wie sich Dein persönliches Codewort zusammensetzt:

- Erster Buchstabe des Vornamens Deiner Mutter (z.B. „A“ für „Anne“)
- Letzter Buchstabe des Vornamens Deines Vaters (z.B. „D“ für „Richard“)
- Dein Geburtsmonat als zweistellige Zahl (z.B. „04“ für „April“)
- Die zwei Anfangsbuchstaben der Stadt, in der Du geboren wurdest (z.B. „MU“ für „Muenster“)

In diesem Beispiel wäre der VP-Code: **AD04MU**

Durch Klicken auf „Ja, ich möchte an der Nacherhebung teilnehmen“ bestätige ich Folgendes: Ich habe die obigen Informationen vollständig gelesen und verstanden und habe momentan keine Fragen mehr zur Nacherhebung. Mit der beschriebenen Handhabung der erhobenen Daten bin ich einverstanden. Ich hatte genug Zeit für eine Entscheidung und bin bereit, an der Nacherhebung teilzunehmen:

Bitte gib nun Deine E-Mail-Adresse an, an die wir zu den 3 Nacherhebungs-Zeitpunkten die Einladungsmail mit dem Fragebogenlink schicken sollen:

General Instruction English

Privacy and anonymity

Needless to say, this project is subject to strict privacy conditions. The data collection is carried out anonymously, meaning you won't be asked for your name at any time. We will save your data as your personal code word instead. Your email address will be saved separately from the other data in a different list and will only be used to contact you (= invitation for the different questionnaires, same as information on how and when you will get your money after the completion of the study and as the case may be the announcement of the 50 € prize). The separate list with the e-mail addresses will only be accessible to our project employees. It will be stored in a locker and destroyed after the lottery of the prize. All employees of the speed-dating project are subject to secrecy. The data that was collected online will be transferred to a secured server in code, so only employees of the project have access to them. All collected data will be saved for at least 10 years and only used for research purposes (incl. papers). Analyses and presentation of the results will be done in anonymized form, so they cannot be associated to you.

You have the possibility to request the deletion of your data till 12 month after the completion of the study (for contact information see end of this page). For that you will only need your personal code word.

Just to remind you, here you find the instruction on how your personal code word is generated:

- First letter of your mother's first name (e.g., "A" for "Anne")
- Last letter of your father's first name (e.g., "D" for "Richard")
- Your month of birth as a two-digit number (e.g., "04" for "April")
- First two letters of the city you were born (e.g., "MU" for "Muenster")

In this example the code word would be: **AD04MU**

With clicking on "Yes I want to participate in the follow-up study" I confirm the following: I have completely read and understood the information above and do not have any further questions about this follow-up study so far. I agree to the described handling of the data. I had enough time to make a decision and I am ready to participate in the follow-up questionnaire:

Please state your e-mail address now, so that we can send you the mail with the link to the questionnaire at the three time points of the follow-up:

FOLLOW-UP ONLINE QUESTIONNAIRE 1-4

All follow-ups had the same structure and nearly the same variables. Therefore, we will present the items only once and clearly mark differences between the 4 follow-ups. The variable labels contain a respective abbreviation that indicates the follow-up questionnaire in which the variable was assessed (Follow-Up 1 = f1, Follow-Up 2 = f2, Follow-Up 3 = f3, Follow-Up 4 = f4).

Figure 14 shows the schematic structure of the Follow-Ups. Each Follow-Up Questionnaire contained two main parts: The Relationship Survey which was only presented to participants, who were in a solid relationship with another person from our speed dating (i.e., if `f1_p_match == 1`), and a Single Survey which was presented to participants who were not in a solid relationship or who were in a relationship with a person who was not part of their speed dating event (i.e., if `f1_relationstatus == 1` or `f1_p_match == 2`). The Single Survey was answered repetitively for every match a person had. Participants with more than one match who were in a relationship with one of these matches (i.e., if `f1_p_match == 1`), answered the Relationship Survey first, afterwards they were asked to answer one Single Survey about each of the other matches.

Figure 15 shows the schematic structure of a Single Survey, which was part of each Follow-Up.

Some items were only presented to participants under specific conditions. These conditions are specified in the “Show-If” column next to the variable name. When the item was only part of a respective Follow-Up Survey the wording of the Show-If is “*Item only in Follow-Up [No.]*”. The wording “*Show-If (only) in Follow-Up [No.]*” indicates that there were only specific conditions in some of the Follow-Ups or the conditions differed in each Survey.

OVERVIEW

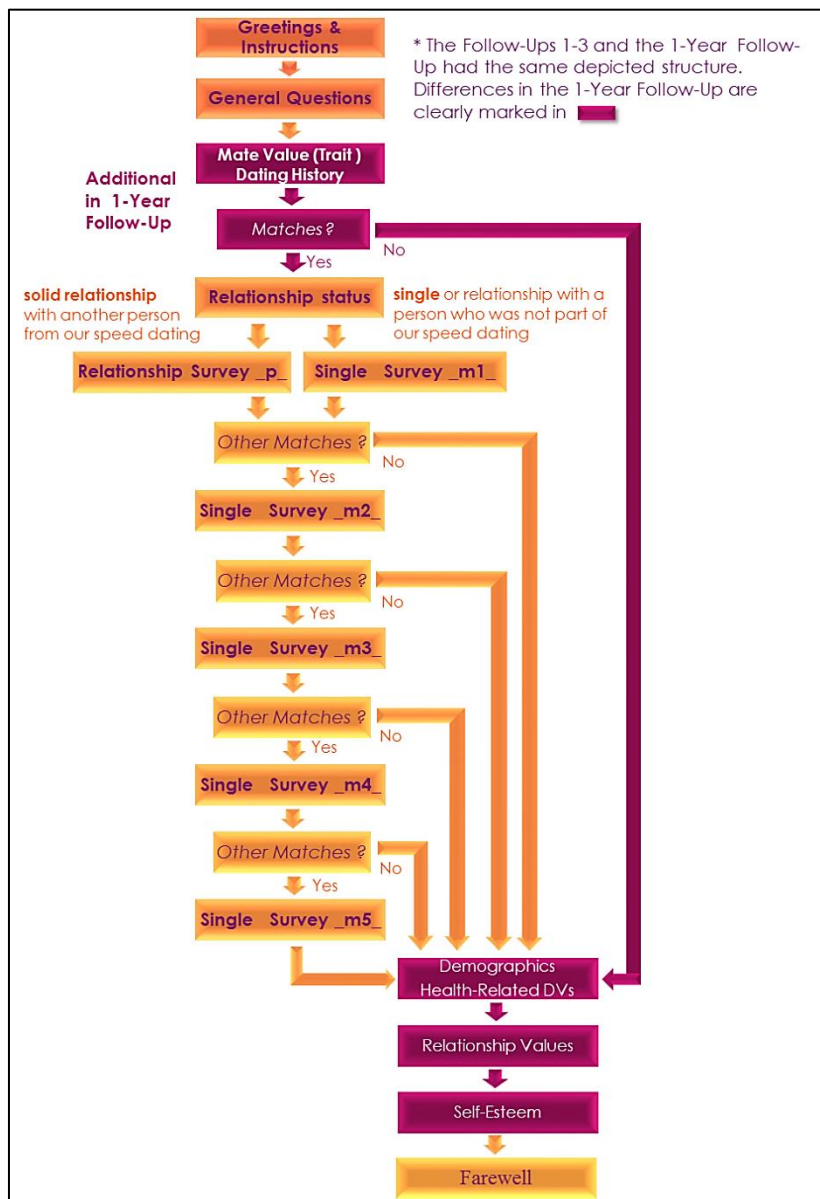

Figure 14. Schematic diagram of the Follow-Up Questionnaires.

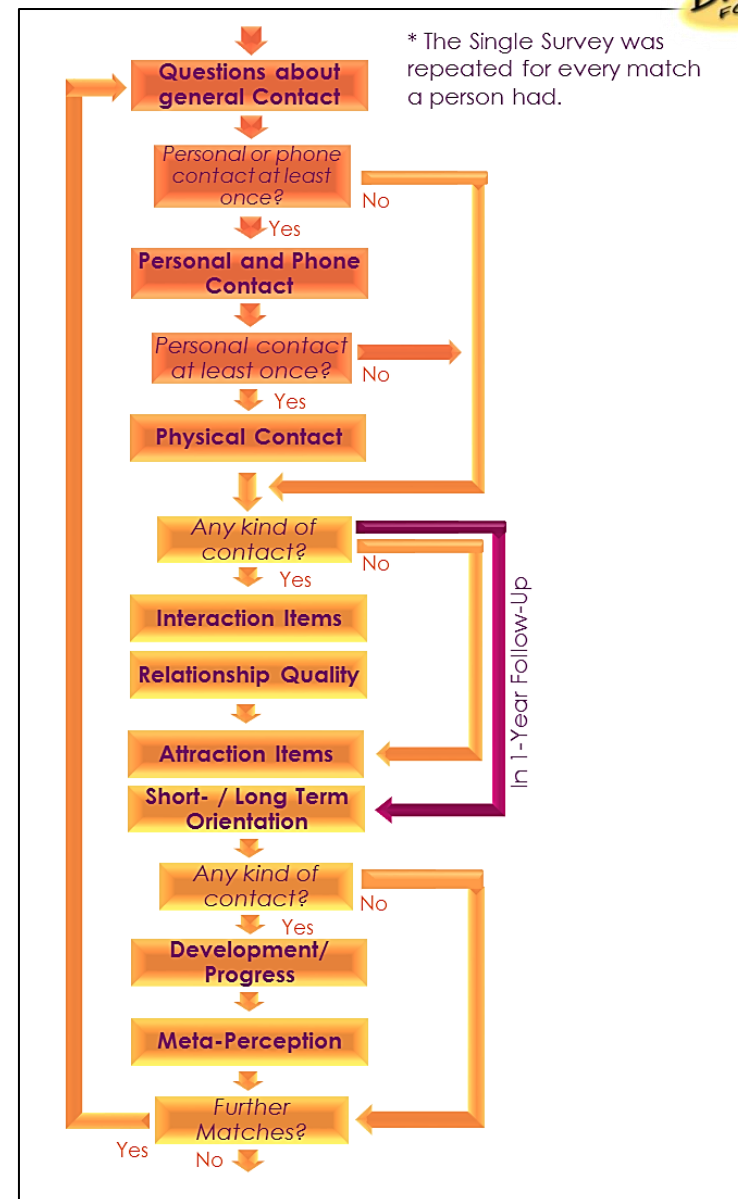

Figure 15. Schematic diagram of one Single Survey.

DATE OF THE FOLLOW-UP

Variable Name	Description German	English	Response Format German	English
f1_date*	Variable gibt das Datum an, an dem der Link zu jedem Follow-Up versendet wurde.	Variable indicates the date on which the link to each follow-up was sent.	TT_MM_JJJJ	DD_MM_YYYY

* All variables labelled with * are not included in the data frame on OpenScience to make sure participants cannot find their own data.

Every follow-up had the same structure and nearly the same variables, exceptions are marked clearly. The variables were labeled according to the follow up questionnaire (Follow-Up 1 = f1, Follow-Up 2= f2...). Therefore, in most cases you will find version f1 to f4 of each variable in our dataset.

INSTRUCTION FOLLOW-UP 1-3

General Instruction German	General Instruction English
<p>Liebe Teilnehmerin, lieber Teilnehmer,</p> <p>vielen Dank fürs Mitmachen an unserer Nacherhebung. Im Folgenden erwartet Dich der erste von drei ^o Nacherhebungsfragebögen. Das Ausfüllen des Fragebogens wird ca. 10-20 Minuten dauern. INSTRUCTION FOLLOW-UP 4

General Instruction German

Liebe Teilnehmerin, lieber Teilnehmer,
es ist nun ein Jahr her, dass Du bei unserem wissenschaftlichen Speed-Dating „Date me for Science“ teilgenommen hast.

Aber wie ist es Dir seitdem in Beziehungsdingen ergangen? Wovon hängt es ab, ob jemand schnell (wieder) eine neue Beziehung eingeht oder ob es bis zur (nächsten) Beziehung ein Weilchen dauert? ^a

Jeder hat hierzu seine eigenen Theorien und Hypothesen, wissenschaftlich untersucht wurde das jedoch noch nie. Mit Deiner Teilnahme an unserer „1 Jahr nach dem Speed-Dating“-Nachbefragung hilfst Du der Wissenschaft, hier Licht ins Dunkel zu bringen.

Wie läuft die „1 Jahr nach dem Speed-Dating“-Nachbefragung ab?

Die Nachbefragung besteht aus einem kurzen Online-Fragebogen (ca. 10 min ^b), der startet, sobald Du unten auf „Ja, ich möchte an der Nachbefragung teilnehmen“ klickst.

Vergütung:

Wenn Du den Online-Fragebogen bis zum Ende ausgefüllt hast, erhältst Du als Dankeschön:

5 Euro ^c

Außerdem kannst Du (wenn Du das möchtest) am Ende des Online-Fragebogens eine **detaillierte Rückmeldung** dazu bekommen, für wie begehrenswert Du Dich als Partnerin/als Partner einschätzt und wie sich andere Personen Deines Geschlechts im Vergleich dazu einschätzen.

Dein Geld kannst Du ca. 3 Monate nach Ausfüllen des Fragebogens entweder bequem per Überweisung von uns bekommen oder Du holst es persönlich bei uns ab. Wir kontaktieren Dich dazu dann noch einmal per E-Mail.

General Instruction English

Dear participant,
one year ago, you took part in our scientific speed dating study “Date me for Science”.

But what happened in your love life since then? What does it depend on whether someone gets (back) into a relationship quickly or whether it needs a while until his/her (next) relationship? ^a

Everybody has their own theories and hypotheses about that, but science has not addressed these questions yet. With your participation in our “1 year after the speed dating” follow-up study you support science to bring light into the darkness here.

What will be the procedure of the “1 year after the speed dating” follow-up study?

The follow-up consists of a short online questionnaire (approx. 10 min ^b), which will start as soon as you click on “Yes, I want to participate in the follow-up” below.

Reward:

To thank you for the participation in the follow-up study you will get:

5 Euro ^c

Additionally you can optionally get a **detailed feedback** on how desirable you consider yourself as a partner and how other people of your sex consider themselves at the end of the online questionnaire (if you like).

You can either get your money comfortably via transaction or pick it up personally approximately 3 month after answering the questionnaire. For this option, we will contact you again via mail.

^a When the person had matches: But what happened after the speed dating? What does it depend on whether something arises from a speed dating match or whether the contact fizzles out when time goes by? (German wording: “Aber was passierte nach dem Speed-Dating? Wovon hängt es ab, ob aus einem Speed-Dating-Match mehr wird oder ob sich der Kontakt im Laufe der Zeit im Sande verläuft?”)

^b When the person had matches: 15-20 min

^c When the person had matches: **10 Euro**

General Instruction German

Bitte beachte: Für die optimale Darstellung öffne das Fragebogenfenster bitte im Vollbild. Das Laden der einzelnen Fragebogenseiten kann ein paar Sekunden dauern, weil unser Server die sicherheitsverschlüsselte Datenübertragung leider nicht schneller schafft. Das Ausfüllen des Fragebogens wird **ca. 10 Minuten**^a dauern.

Bei Fragen oder Anliegen kannst Du Dich jederzeit an uns wenden:
Mail: [E-Mail-Adresse]

Die Teilnahme an der Nachbefragung ist freiwillig. Du kannst jederzeit und ohne Angabe von Gründen Deine Einwilligung zur Teilnahme an der Nachbefragung widerrufen, ohne dass Dir daraus Nachteile entstehen.

Datenschutz und Anonymität:

Selbstverständlich unterliegt auch diese „1 Jahr nach dem Speed-Dating“-Nachbefragung strengen Datenschutzrichtlinien. Die Erhebung der Daten erfolgt anonymisiert, d.h. an keiner Stelle wird Dein Name erfragt. Stattdessen werden Deine Daten wieder unter Deinem persönlichen Codewort gespeichert. Eine ggf. von Dir angegebene E-Mailadresse wird unabhängig von Deinen anderen Daten in einer separaten Liste gespeichert und ausschließlich zur Kontaktierung für die Vergütung genutzt (= Infos wann und wo Du Dein Geld bekommst). Die separate Liste mit den E-Mailadressen ist nur den Mitarbeitern des Dating-Projekts zugänglich. Sie wird in einem abschließbaren Schrank aufbewahrt und nach Abschluss der Vergütungsauszahlung vernichtet. Alle Mitarbeiter des Dating-Projekts unterliegen der Schweigepflicht.

Die online erhobenen Daten werden verschlüsselt auf einen gesicherten Server übermittelt, sodass nur die Mitarbeiter des Dating-Projekts Zugriff auf die Daten haben. Alle erhobenen Daten werden mindestens 10 Jahre gespeichert und ausschließlich für wissenschaftliche Zwecke verwendet. Alle Auswertungen und Präsentationen der Ergebnisse geschehen in anonymisierter Form, d.h. ohne dass Deine Daten Deiner Person zugeordnet werden können. Du hast bis 12 Monate nach Abschluss der Nachbefragung die Möglichkeit, die Löschung aller Deiner Daten bei uns zu beantragen (Kontaktdaten: siehe Seitenende). Hierfür benötigst Du lediglich Dein persönliches Codewort.

Hier nochmal zur Erinnerung die Anleitung, wie sich Dein persönliches Codewort zusammensetzt:

- Erster Buchstabe des Vornamens Deiner Mutter (z.B. „A“ für „Anne“)
- Letzter Buchstabe des Vornamens Deines Vaters (z.B. „D“ für „Richard“)
- Dein Geburtsmonat als zweistellige Zahl (z.B. „04“ für „April“)
- Die zwei Anfangsbuchstaben der Stadt, in der Du geboren wurdest (z.B. „MU“ für „Münster“)

^a When the person had matches: **15-20 min**

General Instruction English

Please note: For the best display please open the questionnaire window on full screen. Loading of the single questionnaire pages can take some seconds because our server can't handle the coded data transfer faster. Answering the questionnaire will approximately take **10 minutes**^a.

If you have any questions or concern, you can always contact us:
e-mail: [e-mail address]

Participation in this study is voluntary. You can disconfirm your agreement for participating in the study anytime without giving reasons, no disadvantages for you will occur from that.

Privacy and anonymity

Needless to say, this “1 year after the speed dating” follow-up, like the first part of the study one year ago, is subject to strict privacy conditions. The elicitation of the data will take place anonymously, meaning you won't be asked for your name at any time. We will save your data in combination with your personal code word instead. If you provide us with your e-mail address, it will be saved separately from the other data in a different list and will only be used to contact you concerning the reward. This list will only be accessible to our project employees. It will be stored in a locker and destroyed after the payment of the rewards. The employees who dispose of your personal data through direct contact are subject to secrecy.

The data that was collected online will be transferred to a secured server in code, so that only employees of the project have access to them. All collected data will be saved for at least 10 years and only used for research purposes. Analyses and presentation of the results will be done in anonymized form, so they cannot be associated to your person.

You have the possibility to request the deletion of your data until 12 month after the speed dating even after the study is completed (for contact information see end of the page). For that you will only need your personal code.

Just to remind you, here you find the instruction on how your personal code word is generated:

- First letter of your mother's first name (e.g., „A“ for “Anne”)
- Last letter of your father's first name (e.g., „D“ for “Richard”)
- Your month of birth as a two-digit number (e.g., „04“ for “April”)
- First two letters of the city you were born (e.g., „MU“ for “Münster”)

General Instruction German

„Mu enster“)

In diesem Beispiel wäre der VP-Code: **AD04MU**

Durch Klicken auf „Ja, ich möchte an der Nachbefragung teilnehmen“ bestätige ich Folgendes: Ich habe die obigen Informationen vollständig gelesen und verstanden und habe momentan keine Fragen mehr zur Nachbefragung. Mit der beschriebenen Handhabung der erhobenen Daten bin ich einverstanden. Ich hatte genug Zeit für eine Entscheidung und bin bereit, an der Nachbefragung teilzunehmen:

General Instruction English

In this example the code word would be: **AD04MU**

With clicking on “Yes I want to participate in the follow-up study” I confirm the following: I have completely read and understood the information above and do not have any further questions about this follow-up study so far. I agree to the described handling of the data. I had enough time to make a decision and I am ready to participate in the follow-up questionnaire:

PERSONAL CODE

Every follow-up had the same structure and nearly the same variables, exceptions are marked clearly. The variables were labeled according to the follow up questionnaire (Follow-Up 1 = f1, Follow-Up 2= f2...). Therefore, in most cases you will find version f1 to f4 of each variable in our dataset.

General Instruction German			General Instruction English		
Bitte erstelle als Erstes wieder Deinen individuellen Code, unter dem Deine Daten gespeichert werden. Er ist dazu da, um Deine Anonymität zu sichern.			Please generate your individual code which we will use to save your data. It is used to secure your anonymity.		
Variable Name	Show If	Description German	English	Response Format German	English
		Erster Buchstabe des Vornamens Deiner Mutter (z.B. „A“ für „Anne“)	First letter of your mother's first name (e.g., "A" for "Anne")	Freies Feld	empty field
		Letzter Buchstabe des Vornamens Deines Vaters (z.B. „D“ für „Richard“)	Last letter of your father's first name (e.g., "R" for "Richard")	Freies Feld	empty field
		Dein Geburtsmonat als zweistellige Zahl (z.B. „04“ für „April“)	Your month of birth as a two-digit number (e.g., "04" for "April")	Freies Feld	empty field
		Die zwei Anfangsbuchstaben der Stadt, in der Du geboren wurdest (z.B. „MU“ für „Muenster“)	First two letters of the city you were born (e.g., "MU" for "Muenster")	Freies Feld	empty field

The personal code has been removed from data to protect participants' anonymity.

Every follow-up had the same structure and nearly the same variables, exceptions are marked clearly. The variables were labeled according to the follow up questionnaire (Follow-Up 1 = f1, Follow-Up 2= f2...). Therefore, in most cases you will find version f1 to f4 of each variable in our dataset.

Wording of the questions in the questionnaire was adjusted to the sex of the participant if necessary.

Variables in the Relationship Survey were additionally labeled with _p_.

SEX

Variable Name	Show If	Description German	English	Response Format German	English
f1_sex*		Ich bin...	I am...	Einfachauswahl: (1) weiblich; (2) männlich	Forced choice: (1) female; (2) male

* All variables labelled with * are not included in the data frame on OpenScience to make sure participants cannot find their own data.

Every follow-up had the same structure and nearly the same variables, exceptions are marked clearly. The variables were labeled according to the follow up questionnaire (Follow-Up 1 = f1, Follow-Up 2= f2...). Therefore, in most cases you will find version f1 to f4 of each variable in our dataset.

Wording of the questions in the questionnaire was adjusted to the sex of the participant if necessary.

Variables in the Relationship Survey were additionally labeled with _p_.

MATE VALUE

Items 1-6: Selected items from the **Self-perceived Mating Success Scale**: Landolt, M. A., Lalumière, M. L., & Quinsey, V. L. (1995). Sex differences in intra-sex variations in human mating tactics: An evolutionary approach. *Ethology and Sociobiology*, 16(1), 3-23.

Items 7-11: Self-generated items

General Instruction German			General Instruction English		
Wie sehr treffen die folgenden Aussagen auf Dich zu?			How much do the following statements apply to you?		
Variable Name	Show If	Description German	English	Response Format German	English
f4_matevalue_1*	Item only in Follow-Up 4	Personen des anderen Geschlechts, die ich mag, mögen mich in der Regel auch.	Members of the opposite sex that I like, tend to like me, too.	Ratingskala: (1) trifft überhaupt nicht zu; (7) trifft voll und ganz zu	Rating scale: (1) not agree at all; (7) agree completely
f4_matevalue_2*	Item only in Follow-Up 4	Personen des anderen Geschlechts bemerken mich.	Members of the opposite sex notice me.	Ratingskala: (1) trifft überhaupt nicht zu; (7) trifft voll und ganz zu	Rating scale: (1) not agree at all; (7) agree completely
f4_matevalue_3*	Item only in Follow-Up 4	Ich bekomme viele Komplimente von Personen des anderen Geschlechts.	I receive many compliments from members of the opposite sex.	Ratingskala: (1) trifft überhaupt nicht zu; (7) trifft voll und ganz zu	Rating scale: (1) not agree at all; (7) agree completely
f4_matevalue_4*	Item only in Follow-Up 4	Personen des anderen Geschlechts fühlen sich zu mir hingezogen.	Members of the opposite sex are attracted to me.	Ratingskala: (1) trifft überhaupt nicht zu; (7) trifft voll und ganz zu	Rating scale: (1) not agree at all; (7) agree completely
f4_matevalue_5*	Item only in Follow-Up 4	Ich kann so viele Sexualpartner bekommen, wie ich möchte.	I can have as many sexual partners as I choose.	Ratingskala: (1) trifft überhaupt nicht zu; (7) trifft voll und ganz zu	Rating scale: (1) not agree at all; (7) agree completely
f4_matevalue_6*	Item only in Follow-Up 4	Ich bekomme von Personen des anderen Geschlechts nur selten Komplimente.	I do not receive many compliments from members of the opposite sex	Ratingskala: (1) trifft überhaupt nicht zu; (7) trifft voll und ganz zu	Rating scale: (1) not agree at all; (7) agree completely
f4_matevalue_7*	Item only in Follow-Up 4	Ich bin erfolgreich beim anderen Geschlecht.	I am successful when it comes to persons of the other sex.	Ratingskala: (1) trifft überhaupt nicht zu; (7) trifft voll und ganz zu	Rating scale: (1) not agree at all; (7) agree completely

* All variables labelled with * are not included in the data frame on OpenScience to make sure participants cannot find their own data.

ADDITIONAL ITEMS FOR WOMEN

General Instruction German			General Instruction English		
Die Forschung hat gezeigt, dass die Partnerwahl von Frauen von ihrem Menstruationszyklus abhängt. Bitte beantworte uns daher auch die folgende Frage:			Research has shown that partner choice of women differ depending on their menstrual cycle. Therefore, please answer the following question:		
Variable Name	Show If	Description German	English	Response Format German	English
f1_contracept*	f1_sex == 1	Nutzt Du momentan ein hormonelles Verhütungsmittel (z.B. die Pille)?	Do you use a hormonal contraceptive (e.g., contraceptive pill)?	Einfachauswahl: (1) Ja; (2) Nein; (3) Ich möchte keine Angabe machen.	Forced choice: (1) Yes; (2) No; (3) I don't want to provide a response.
General Instruction German			General Instruction English		
Bitte gib auch das Datum des ersten Tages Deiner letzten Menstruationsblutung an. Schau dazu bitte im Kalender nach, der sich durch Doppelklick auf das Eingabefeld öffnet (bitte in diesem Kalender zuerst das Jahr und den Monat auswählen). Wenn Du Dich nicht mehr genau erinnern kannst, schätze einfach so genau wie möglich. Wenn Du keine Angabe machen möchtest, kannst Du das Feld einfach leer lassen.			Please also indicate the date of the first day of your last menstrual bleeding. Therefor check up at the calendar below, that opens when you double click the text field (Please select the year and month in this calendar first). If you do not remember it clearly, please estimate the date as accurate as possible. If you don't want to provide an answer, you can just leave the field empty.		
Variable Name	Show If	Description German	English	Response Format German	English
f1_menstr*	f1_sex == 1 f1_contracept == 2	Erster Tag meiner letzten Blutung: (Eingabeformat: TT.MM.JJJJ)	First day of my last menstrual bleeding (input format: DD.MM.YYYY)	Kalenderauswahl	calendar selection
f1_menstr_comment*	f1_sex == 1 f1_contracept == 2	Kommentar (optional):	Comment (optional):	Freies Feld	empty field

* All variables labelled with * are not included in the data frame on OpenScience to make sure participants cannot find their own data.

Every follow-up had the same structure and nearly the same variables, exceptions are marked clearly. The variables were labeled according to the follow up questionnaire (Follow-Up 1 = f1, Follow-Up 2= f2...). Therefore, in most cases you will find version f1 to f4 of each variable in our dataset.

Wording of the questions in the questionnaire was adjusted to the sex of the participant if necessary.

Variables in the Relationship Survey were additionally labeled with _p_.

DATING HISTORY OF THE PAST 12 MONTHS

The first and the second item were selected from Asendorpf, J. B., Penke, L., & Back, M. D. (2011). From dating to mating and relating: Predictors of initial and long-term outcomes of speed-dating in a community sample. *European Journal of Personality*, 25(1), 16-30.

Some of the following items are equivalent to the dating history items in the Pre-Event Questionnaire. We labelled these items equivalently to their respective counterparts in the Pre-Event Questionnaire.

Variable Name	Show If	Description German	English	Response Format German	English
f4_dating_hist_1*	Item only in Follow-Up 4	Wie viele Beziehungen, die mindestens 1 Monat gedauert haben, hattest Du <i>seit Deinem Speed-Dating-Termin vor 12 Monaten?</i> (Angabe bitte in Zahlen)	How many relationships lasting longer than 1 month did you have <i>since your speed dating event 12 month ago?</i> (Please, state in numbers)	Freies Feld	Empty Field
f4_dating_hist_12*	Item only in Follow-Up 4	Wie viel Zeit hast Du insgesamt <i>in den letzten 12 Monaten</i> in partnerschaftlichen Beziehungen verbracht (in Monaten)? (Angabe bitte in Zahlen)	How much time did you spend in solid relationships <i>during the last 12 month</i> (in month)? (Please, state in numbers)	Freies Feld	Empty Field
f4_dating_hist_11*	Item only in Follow-Up 4	Wie häufig warst Du <i>in den letzten 12 Monaten</i> verliebt? (Angabe bitte in Zahlen)	How often have you been in love <i>in the past 12 month?</i> (Please, state in numbers)	Freies Feld	Empty Field
f4_dating_hist_8*	Item only in Follow-Up 4	Bei wie vielen Personen hattest Du <i>in den letzten 12 Monaten</i> Interesse an einer festen Beziehung? (Angabe bitte in Zahlen)	How many persons were you interested in having a committed relationship with <i>in the last 12 month?</i> (Please, state in numbers)	Freies Feld	Empty Field

* All variables labelled with * are not included in the data frame on OpenScience to make sure participants cannot find their own data.

Every follow-up had the same structure and nearly the same variables, exceptions are marked clearly. The variables were labeled according to the follow up questionnaire (Follow-Up 1 = f1, Follow-Up 2= f2...). Therefore, in most cases you will find version f1 to f4 of each variable in our dataset.

Wording of the questions in the questionnaire was adjusted to the sex of the participant if necessary.

Variables in the Relationship Survey were additionally labeled with _p_.

NUMBER OF MATCHES AND RELATIONSHIP STATUS

Variable Name	Show If	Description German	English	Response Format German	English
f4_match*	Item only in Follow-Up 4	Variable gibt an, ob Person Matches hatte oder nicht	Variable indicates if participant had any matches or not	(0) keine Matches; (1) ein oder mehrere Matches	(0) no matches; (1) one or more matches
f1_match_number*	Show-If only in Follow-Up 4: f4_match == 1	Wie viele Matches hattest Du in unserem Speed-Dating ^a (= Personen, von denen wir Dir die Kontaktdaten weitergeleitet haben)?	How any matches did you have in our speed dating ^a (= persons, whose contact data was send to you)?	Einfachauswahl: (1) 1 Match; (2) 2 Matches; (3) 3 Matches; (4) 4 Matches; (5) 5 Matches ^b	Forced choice: (1) 1 Match; (2) 2 Matches; (3) 3 Matches; (4) 4 Matches; (5) 5 Matches
f1_relationstatus*		Wie ist Dein aktueller Beziehungsstatus?	What is your current relationship status?	Einfachauswahl: (1) nicht in einer festen Beziehung; (2) in einer festen Beziehung	Forced choice: (1) not in a solid relationship; (2) in a solid relationship
f1_p_relationstart*	f1_relationstatus == 2	Wann hat Deine aktuelle Beziehung begonnen? Eingabeformat: TT.MM.JJJJ (Durch Doppelklick auf das Eingabefeld öffnet sich ein Kalender. In diesem Kalender bitte zuerst das Jahr und den Monat auswählen)	When did your current relationship start? (input format: DD.MM.YYYY) (With double click on the text field a calendar opens. Please select the year and month in this calendar first)	Kalenderauswahl	calendar selection

* All variables labelled with * are not included in the data frame on OpenScience to make sure participants cannot find their own data.

^a In Follow-Up 4: ... one year ago ... (German wording: "...vor einem Jahr...")

^b „5 Matches“ only in Follow-Up 1-3

Every follow-up had the same structure and nearly the same variables, exceptions are marked clearly. The variables were labeled according to the follow up questionnaire (Follow-Up 1 = f1, Follow-Up 2= f2...). Therefore, in most cases you will find version f1 to f4 of each variable in our dataset.

Wording of the questions in the questionnaire was adjusted to the sex of the participant if necessary.

Variables in the Relationship Survey were additionally labeled with _p_.

Variable Name	Show If	Description German	English	Response Format German	English
f4_p_relationstart_end*	Item only in Follow-Up 4 f4_relationstatus == 2	Falls Du mit Deinem aktuellen Partner schon mehrere Beziehungsversuche hattest (z.B. weil ihr eine On-Off-Beziehung hattet), gib hier bitte an, von wann bis wann (ungefähres Datum) die einzelnen Beziehungsversuche dauerten:	If you made several attempts having a relationship with your current partner (e.g., because you had an On-Off-Relationship), please state here from when to when (approximate dates) these attempts lasted.	Freies Feld	empty field
f1_p_match*	f1_relationstatus == 2	Ich bin in einer festen Beziehung mit...	I am in a solid relationship with...	Einfachauswahl: (1) ...einer Person aus euren Speed-Datings; (2)...jemand	Forced choice: (1) ... a person from your speed-dating; (2) ... someone else

* All variables labelled with * are not included in the data frame on OpenScience to make sure participants cannot find their own data.

Every follow-up had the same structure and nearly the same variables, exceptions are marked clearly. The variables were labeled according to the follow up questionnaire (Follow-Up 1 = f1, Follow-Up 2= f2...). Therefore, in most cases you will find version f1 to f4 of each variable in our dataset.

Wording of the questions in the questionnaire was adjusted to the sex of the participant if necessary.

Variables in the Relationship Survey were additionally labeled with _p_.

RELATIONSHIP SURVEY

This part of each follow-up was only presented to participants, who were in a solid relationship with another person from our speed dating (i.e., if `f1_p_match == 1`). All variables in this part are additionally labeled with `_p_`.

RELATIONSHIP SURVEY: QUESTIONS ABOUT GENERAL CONTACT

Items 3-6 were selected from Asendorpf, J. B., Penke, L., & Back, M. D. (2011). From dating to mating and relating: Predictors of initial and long-term outcomes of speed-dating in a community sample. *European Journal of Personality*, 25, 16-23.

General Instruction German			General Instruction English

Variables in the Relationship Survey were additionally labeled with _p_.

SINGLE SURVEY

The Single Survey of each follow-up was presented to participants who were not in a solid relationship or who were in a relationship with a person who was not part of their speed dating event (i.e., if `f1_relationstatus == 1` or `f1_p_match == 2`).

The parts of the Single Survey that refer to a participant's match were repeated for every match this person had but only if the person was not in a solid relationship with the specific match (i.e., if `f1_relationstatus == 1` or `f1_p_match == 2`). In case of more than one match the instruction was adjusted to the specific number of matches. We named the variables after the number of the match it was about (from `m1` to `m4`), the order of the matches was chosen by the participant and is therefore not consistent with the order of the matches in the speed dating event.

Every follow-up had the same structure and nearly the same variables, exceptions are marked clearly. The variables were labeled according to the follow up questionnaire (Follow-Up 1 = `f1`, Follow-Up 2 = `f2`...). Therefore, in most cases you will find version `f1` to `f4` of each variable in our dataset.

Wording of the questions in the questionnaire was adjusted to the sex of the participant if necessary.

We named the variables after the number of the match it was about (from `m1` to `m5`).

SINGLE SURVEY: GENERAL QUESTIONS

Variable Name	Show If	Description		Response Format	
		German	English	German	English

Im Folgenden geht es um dieses^c Match aus unserem Speed-Dating:		The following is about this^c match from our speed dating:			
Variable Name	Show If	Description German	English	Response Format German	English
f1_m1_partnerid ^d *	Show-If in Follow-Up 1-3: f1_relationstatus == 1 or f1_p_match == 2 Show-If in Follow-Up 4: f4_relationstatus == 1 or f4_p_match == 2 & f4_match == 1	VP-Nummer des Matches	match's ID	--	--

^a In case of more than one match the instruction was adjusted to the specific number of matches (**second, third, fourth, fifth**). (German: zweites, drittes, viertes, fünftes)

^b Additional Instruction in Follow-Up 4

^c In case of more than one match the instruction was adjusted to the specific number of matches (**your first, your second, your third, your fourth**). (German: dein erstes, dein zweites, dein drittes, dein viertes)

^d Only in Follow-Up 4: If it was not possible to match the ID of the participant's partner distinct, there is 0 in this variable and contemplable IDs are mentioned in f4_possiblepartnerids

* All variables labelled with * are not included in the data frame on OpenScience to make sure participants cannot find their own data.

Every follow-up had the same structure and nearly the same variables, exceptions are marked clearly. The variables were labeled according to the follow up questionnaire (Follow-Up 1 = f1, Follow-Up 2= f2...). Therefore, in most cases you will find version f1 to f4 of each variable in our dataset.

Wording of the questions in the questionnaire was adjusted to the sex of the participant if necessary.

We named the variables after the number of the match it was about (from m1 to m5).

General Instruction German			General Instruction English		
Bitte denke nun zunächst an den gesamten Zeitraum seit dem Speed-Dating bis jetzt. ^a			Please concentrate on the whole period from the speed dating until now first. ^a		
Variable Name	Show If	Description German	English	Response Format German	English
f2_m1_pastcont*	Item only in Follow-Up 2 and 3: f1_relationstatus == 1 or f1_p_match == 2	Hattest Du im gesamten Zeitraum nach dem Speed-Dating mit Deinem ersten ^b Match schon mal in irgendeiner Form gegenseitigen Kontakt (= nicht nur einseitige Kontaktversuche), auch wenn es nur sehr kurz war?	Did you have any kind of mutual contact (= not only one-sided attempts to get in touch) with your first ^b match in the whole time since the speed dating, even if it was only very briefly?	Einfachauswahl: (1) Ja, wir haben uns auch schon miteinander getroffen; (2) Ja, aber wir haben uns bisher nicht getroffen; (3) Nein, gegenseitigen Kontakt gab es nie	Forced choice: (1) Yes, we even met each other; (2) Yes, but we didn't meet yet; (3) No, there was no mutual contact
General Instruction German			General Instruction English		
Ab jetzt geht es nur noch um den Zeitraum seit der letzten Nacherhebung bis jetzt: ^c			From now on it is only about the period from the last follow-up until now: ^c		

^a Only in Follow-up 2,3 and 4

* All variables labelled with * are not included in the data frame on OpenScience to make sure participants cannot find their own data.

^b In case of more than one match the instruction was adjusted to the specific number of matches (**second, third, fourth, fifth**). (German: zweiten, dritten, vierten, fünften)

^c Only in Follow-Up 2 and 3.

Every follow-up had the same structure and nearly the same variables, exceptions are marked clearly. The variables were labeled according to the follow up questionnaire (Follow-Up 1 = f1, Follow-Up 2= f2...). Therefore, in most cases you will find version f1 to f4 of each variable in our dataset.

Wording of the questions in the questionnaire was adjusted to the sex of the participant if necessary.

We named the variables after the number of the match it was about (from m1 to m5).

Variable Name	Show If	Description German	English	Response Format German	English
f1_m1_cont*	Show-If in Follow-Up 1: (f1_relationstatus == 1 or f1_p_match == 2) Show-If in Follow-Up 2&3: & (f2_m1_pastcont == 1 or f2_m1_pastcont == 2) Show-If in Follow-Up 4: f4_relationstatus == 1 or f4_p_match == 2 & f4_match == 1	Hattest Du seit dem Speed-Dating ^a in irgendeiner Form Kontakt mit Deinem ersten ^b Match (auch wenn es nur sehr kurz war)?	Did you have <i>any kind of</i> contact with your first ^b match in the whole time since the speed dating ^a , even if it was only very briefly?	Einfachauswahl: (1) Nein, wir hatten seit der letzten Nacherhebung ^c keinerlei Kontakt und es gab auch keine Kontaktversuche; (2) Nein. Es gab seit der letzten Nacherhebung zwar Kontaktversuche, aber die waren einseitig (= gingen nur von einer Seite aus & andere Seite hat nie reagiert); (3) Ja, wir hatten seit der letzten Nacherhebung Kontakt miteinander	Forced choice: (1) No, we didn't have any contact and there have also been no attempts to get in touch since the last follow-up ^c ; (2) No. There have been attempts to get in touch since the last follow-up but they were one-sided (= they were only coming from one side & the other side never reacted); (3) Yes, we were in contact since the last follow-up
f1_m1_first_cont_time*	Item only in Follow-Up 1 (f1_relationstatus == 1 or f1_p_match == 2) & f1_m1_cont == 3	Wann hat der erste Kontakt zwischen Dir und [Name] stattgefunden?	When was the first contact between you and [name]?	Einfachauswahl: (1) schon bevor die Mail mit den Matches kam; (2) am Tag als die Mail mit den Matches kam; (3) 1 Tag nach der Match-Mail; (4) 2 Tage nach der Match-Mail; (5) 3-5 Tage nach der Match-Mail; (6) 6-8 Tage nach der Match-Mail; (7) später	Forced choice: (1) even before the mail with the matches arrived; (2) the day the mail with the matches arrived; (3) 1 day after the match-mail; (4) 2 days after the match-mail; (5) 3-5 days after the match-mail; (6) 6-8 days after the match-mail; (7) later

* All variables labelled with * are not included in the data frame on OpenScience to make sure participants cannot find their own data.

^a In Follow-Up 2 and 3: "...since the last follow-up..." (German wording: "...seit der letzten Nacherhebung...")

^b In case of more than one match the instruction was adjusted to the specific number of matches (second, third, fourth, fifth). (German: zweiten, dritten, vierten, fünften)

^c Additional in Follow-Up 2 and 3.

Every follow-up had the same structure and nearly the same variables, exceptions are marked clearly. The variables were labeled according to the follow up questionnaire (Follow-Up 1 = f1, Follow-Up 2= f2...). Therefore, in most cases you will find version f1 to f4 of each variable in our dataset.

Wording of the questions in the questionnaire was adjusted to the sex of the participant if necessary.

We named the variables after the number of the match it was about (from m1 to m5).

f1_m1_sex_apr*	Show-If in Follow-Up 1-3: (f1_relationstatus == 1 or f1_p_match == 2) & (f1_m1_pers_sex == 2 or f1_m1_pers_sex == 3) Show-If in Follow-Up 4: & f4_match == 1	[Name] ist ein guter Liebhaber/ eine gute Liebhaberin.	[Name] is a good lover.	Ratingskala: (1) trifft überhaupt nicht zu; (7) trifft voll und ganz zu	Rating scale: (1) not agree at all; (7) agree completely
f1_m1_sex_regret*	Show-If in Follow-Up 1-3: (f1_relationstatus == 1 or f1_p_match == 2) & (f1_m1_pers_sex == 2 or f1_m1_pers_sex == 3) Show-If in Follow-Up 4: & f4_match == 1	Der sexuelle Kontakt zu [Name] war keine gute Idee.	The sexual contact with [name] was not a good idea.	Ratingskala: (1) trifft überhaupt nicht zu; (7) trifft voll und ganz zu	Rating scale: (1) not agree at all; (7) agree completely

* All variables labelled with * are not included in the data frame on OpenScience to make sure participants cannot find their own data.

Every follow-up had the same structure and nearly the same variables, exceptions are marked clearly. The variables were labeled according to the follow up questionnaire (Follow-Up 1 = f1, Follow-Up 2 = f2...). Therefore, in most cases you will find version f1 to f4 of each variable in our dataset.

Wording of the questions in the questionnaire was adjusted to the sex of the participant if necessary.

We named the variables after the number of the match it was about (from m1 to m5).

How important is the contact with [name] for you?	Ratingskala: (1) überhaupt nicht wichtig; (7) extrem wichtig	Rating scale: (1) not important at all; (7) extremely important
f1_m1_relation_importance_p*	Show-If in Follow-Up 1: (f1_relationstatus == 1 or f1_p_match == 2) & f1_m1_cont == 3 Show-If in Follow-Up 2&3: (f1_relationstatus == 1 or f1_p_match == 2) & (f2_m1_pastcont == 1 or f2_m1_pastcont == 2) Show-If in Follow-Up 4: (f4_relationstatus == 1 or f4_p_match == 2) & f4_match == 1 & f4_m1_cont == 3 & f4_m1_cont_curr == 2	Wie wichtig ist [Name] der Kontakt zu Dir?	How important is [name] the contact with you?	Ratingskala: (1) überhaupt nicht wichtig; (7) extrem wichtig	Rating scale: (1) not important at all; (7) extremely important

* All variables labelled with * are not included in the data frame on OpenScience to make sure participants cannot find their own data.

Every follow-up had the same structure and nearly the same variables, exceptions are marked clearly. The variables were labeled according to the follow up questionnaire (Follow-Up 1 = f1, Follow-Up 2= f2...). Therefore, in most cases you will find version f1 to f4 of each variable in our dataset.

Wording of the questions in the questionnaire was adjusted to the sex of the participant if necessary.

We named the variables after the number of the match it was about (from m1 to m5).

FURTHER MATCHES

General Instruction German			General Instruction English		
Vielen Dank für Deine Angaben zu <i>[Name]</i> (= Deinem ersten ^a Match).			Thank you for your comments about <i>[name]</i> (= your first ^a match).		
Variable Name	Show If	Description German	Englisch	Response Format German	Englisch
f4_m1_comment*	Item only in Follow-Up 4 f4_match == 1	Hast Du noch Anmerkungen zu Deinen Angaben zu <i>[Name]</i> ?	Do you have any comments concerning your answers about <i>[name]</i> ?	Freies Feld	empty field
f1_m2_exist*		Hattest Du bei unserem Speed-Dating noch ein zweites ^b Match (d.h. gab es eine zweite Person, von der wir Dir die Kontaktdaten weitergeleitet haben)? (Dein erstes ^c Match war <i>[Name]</i>)	Did you have a second ^b match (meaning: was there another person whose contact data you received)? (Your first ^c match was <i>[name]</i>)	Einfachauswahl: (1) Ja; (2) Nein	Forced choice: (1) Yes; (2) No

In case of more than one match, the items from the “Single Survey” labeled with *_m1_* above were repeated for the other match/es at this point even if the person filled in the “Relationship Survey” before. The variables were named after the number of the match it was about (from *m1* to *m5*, starting with *m2* for people who filled in the “Relationship Survey” first).

^a Or “second”/“third”/ “forth”/“fifth” match (German wording: “zweiten”/“dritten”/“vierten”/“fünften” Match)

* All variables labelled with * are not included in the data frame on OpenScience to make sure participants cannot find their own data.

^b Or “third”/ “forth”/“fifth” match (German wording: “drittes”/“viertes”/“fünftes” Match)

^c Or „Your former matches were...” (German wording: “Deine bisherigen Matches waren...”)

Every follow-up had the same structure and nearly the same variables, exceptions are marked clearly. The variables were labeled according to the follow up questionnaire (Follow-Up 1 = *f1*, Follow-Up 2= *f2*...). Therefore, in most cases you will find version *f1* to *f4* of each variable in our dataset.

Wording of the questions in the questionnaire was adjusted to the sex of the participant if necessary.

We named the variables after the number of the match it was about (from *m1* to *m5*).

OTHER CONTACTS

Items selected from Asendorpf, J. B., Penke, L., & Back, M. D. (2011). From dating to mating and relating: Predictors of initial and long-term outcomes of speed-dating in a community sample. *European Journal of Personality*, 25, 16-23.

General Instruction German		General Instruction English			
Vielen Dank für Deine Angaben zu Deinem Match/Deinen Matches ^a .		Thank you for your comments about your match/es ^a .			
Variable Name	Show If	Description German	English	Response Format German	English
f1_cont_other*		Hattest Du nach unserem Speed-Dating ^b noch mit anderen männlichen/weiblichen Teilnehmern Deines Speed-Dating-Abends, mit denen Du kein Match hattest, in irgendeiner Form Kontakt?	Did you have any kind of contact with other <i>male/female</i> participants of your speed dating evening who you didn't match with after our speed-dating ^b ?	Einfachauswahl: (1) nein; (2) ja, mit 1 anderen Teilnehmer; (3) ja, mit 2 anderen Teilnehmern; (4) ja, mit 3 anderen Teilnehmern; (5) ja, mit 4 anderen Teilnehmern	Forced choice: (1) no; (2) yes, with 1 other participant; (3) yes, with 2 other participants; (4) yes, with 3 other participants; (5) yes, with 4 other participants
f1_furtherpartners*		Mit wie vielen anderen möglichen Partnern, die <i>keine Teilnehmer unseres Speed-Datings</i> waren, hast Du seit Deiner Teilnahme an unserem Speed-Dating ^c privat etwas unternommen?	How many other possible partners, who weren't participants of our speed dating, did you meet up with since your participation in the speed dating ^c ?	Freies Feld	empty field

^a Adjusted to the number of matches

* All variables labelled with * are not included in the data frame on OpenScience to make sure participants cannot find their own data.

^b In Follow-Up 2 and 3: "...since the last follow-up..." (German wording: "...seit der letzten Nacherhebung...")

^c In Follow-Up 2 and 3: "...since the last follow-up..." In Follow-Up 4: "...regularly in the last 12 month since your participation in our speed dating study..." (German wording: "...in den letzten 12 Monaten nach Deiner Teilnahme an unserem Speed-Dating des Öfteren...")

Every follow-up had the same structure and nearly the same variables, exceptions are marked clearly. The variables were labeled according to the follow up questionnaire (Follow-Up 1 = f1, Follow-Up 2= f2...). Therefore, in most cases you will find version f1 to f4 of each variable in our dataset.

Wording of the questions in the questionnaire was adjusted to the sex of each participant if necessary.

Forced choice: (1) no own income, (2) Less than 400€, (3) 400-1.199€, (4) 1.200-1.999€, (5) 2.000-2.999€, (6) 3.000-5.999€, (7) 6.000€ or more, (8) I don't want to provide a response.

[□] Only in Follow-Up 4

* All variables labelled with * are not included in the data frame on OpenScience to make sure participants cannot find their own data.

Every follow-up had the same structure and nearly the same variables, exceptions are marked clearly. The variables were labeled according to the follow up questionnaire (Follow-Up 1 = f1, Follow-Up 2= f2...). Therefore, in most cases you will find version f1 to f4 of each variable in our dataset.

Wording of the questions in the questionnaire was adjusted to the sex of each participant if necessary.

FAREWELL

Variable Name	Show If	Description German	English	Response Format German	English
	Only in Follow-Up 3	Da uns auch die langfristige Entwicklung entstehender zwischenmenschlicher/romantischer Beziehungen interessiert, würde es uns freuen, wenn wir Dich auch nach Abschluss dieser Studie für eventuelle weitere Befragungen kontaktieren dürften. Wenn Du damit einverstanden bist, erlaube uns bitte, dass wir zu diesem Zweck Deine E-Mail-Adresse speichern dürfen. Die E-Mail-Adresse wird getrennt von Deinen übrigen Daten gespeichert.	We are also interested in the long-term development of upcoming interpersonal/romantic relationships. That's why we would be glad, if we could also contact you after the completion of this study for potential further surveys. If you agree to that, please allow us to save your e-mail address for this purpose. The e-mail address will be saved separately from your other data.	Einfachauswahl: (1) Ja, ihr dürft mich hierfür weiterhin kontaktieren und ich erlaube, dass meine E-Mail-Adresse zu diesem Zweck gespeichert wird; (2) Nein, ich möchte nicht mehr von euch kontaktiert werden	Forced choice: (1) Yes, you can contact me again for this and I allow you to save my e-mail address for this purpose; (2) No, I don't want to be contacted again
	Only in Follow-Up 3	Als Dankeschön dafür, dass Du alle drei Nacherhebungsfragebögen ausgefüllt hast, kannst Du (wenn Du das möchtest) eine detaillierte Rückmeldung zu Deinen Partnerpräferenzen bekommen: Was ist Dein idealer Partner? Hast Du höhere oder niedrigere Ansprüche an Deinen Partner als andere Personen Deines Geschlechts? Wie gut passen Personen des anderen Geschlechts zu Deinen Partnerwünschen? Diese Rückmeldung wird nach Abschluss der Nacherhebung (ca. April 2016) per E-Mail zugesandt.	As a thank-you for completing all three Follow-Up questionnaires, you can (if you like to) get a detailed feedback on your partner preferences: What is your ideal partner like? Do you have higher or lower demands on your partner than other persons of your sex? How well do persons of the other sex fit your wishes for a partner? The feedback will be send via mail after the completion of the Follow-Up (approximately April 2016).	Einfachauswahl: (1) Ja, ich möchte Rückmeldung zu meinen Partnerpräferenzen bekommen; (2) Nein, ich möchte keine Rückmeldung zu meinen Partnerpräferenzen	Forced choice: (1) Yes, I want a feedback on my partner preferences; (2) No, I do not want a feedback on my partner preferences

Every follow-up had the same structure and nearly the same variables, exceptions are marked clearly. The variables were labeled according to the follow up questionnaire (Follow-Up 1 = f1, Follow-Up 2= f2...). Therefore, in most cases you will find version f1 to f4 of each variable in our dataset.

Follow-Up 3

General Instruction German	General Instruction English
Bitte klicke unten gleich noch einmal auf „weiter“ , dann ist der Fragebogen beendet. Vielen Dank fürs Ausfüllen! Das war der letzte Fragebogen. Die Nacherhebung ist damit beendet.	Please click on “continue” once again, the questionnaire will be terminated then. Thanks a lot for answering! This was the last questionnaire. The follow-up is completed.

Every follow-up had the same structure and nearly the same variables, exceptions are marked clearly. The variables were labeled according to the follow up questionnaire (Follow-Up 1 = f1, Follow-Up 2= f2...). Therefore, in most cases you will find version f1 to f4 of each variable in our dataset.

Wording of the questions in the questionnaire was adjusted to the sex of each participant if necessary.

RATING OF VIDEOS AND PHOTOS

PHOTO RATINGS

For rating the Speed-Dating participants on several issues we used the pictures we took of them after each Speed-Dating event. The pictures of the Speed-Dating participants' bodies (without head) and the portrait pictures were presented to opposite-sex raters who didn't participate in the Speed-Dating. The raters were instructed to evaluate the Speed-Dating participants relative to the other Speed-Dating participants. Before, they were presented 30 sample portrait or full body pictures of the Speed-Dating participants to get a rough impression of the pictures. The table shows the questions the raters answered about the Speed-Dating participants. Ratings on further characteristics are planned.

Variable Name	Description		Response Format	
	German	English	German	English
pr_attr_body_01	Attraktivität des Körpers	Attractiveness of the body	Ratingskala: 1 (überhaupt nicht attraktiv) bis 7 (sehr attraktiv)	Rating scale: 1 (not attractive at all) to 7 (very attractive)
pr_attr_face_01	Attraktivität des Gesichts	Attractiveness of the face	Ratingskala: 1 (überhaupt nicht attraktiv) bis 7 (sehr attraktiv)	Rating scale: 1 (not attractive at all) to 7 (very attractive)

All variables collected in the photo ratings are labeled with the prefix pr_.
As there were 10 raters for each Speed-Dating participant the variables are serially numbered from _01 to _10.

SAMPLE PICTURES

Figure 16 shows an example of a full body picture used for the photo ratings. Figure 17 shows an example of a portrait picture.

Figure 16. Example of a full body picture used for the photo ratings.

Figure 17. Example of a portrait picture used for the photo ratings.

VIDEO RATINGS

MATE VALUE

Opposite-sex heterosexual raters answered the questions below about speed-dating participants. The raters watched the videos that were made of the Speed-Dating interactions. There were as many videos of a participant as she or he had dates, each video showing one date. The video only showed the person who was to be rated though.

Variable Name	Description		Response Format	
	German	English	German	English
vr_d1_matevalue_date_01	Die meisten Menschen meines Geschlechts würden sagen, dass diese Person ein begehrenswerter Partner für ein Date ist.	Most people of my sex would say that this person is a desirable dating partner.	Ratingskala: 1 (überhaupt nicht) bis 7 (auf jeden Fall)	Ratingscale: 1 (not at all) to 7 (absolutely)
vr_d1_matevalue_lt_01	Die meisten Menschen meines Geschlechts würden sagen, dass diese Person ein begehrenswerter Partner für eine feste, langfristige Beziehung ist.	Most people of my sex would say that this person is a desirable partner for a long-term committed romantic relationship.	Ratingskala: 1 (überhaupt nicht) bis 7 (auf jeden Fall)	Ratingscale: 1 (not at all) to 7 (absolutely)
vr_d1_matevalue_st_01	Die meisten Menschen meines Geschlechts würden sagen, dass diese Person ein begehrenswerter Partner für eine kurze sexuelle Affäre oder einen One-Night-Stand ist.	Most people of my sex would say that this person is a desirable partner for a short-term sexual affair or a one-night stand.	Ratingskala: 1 (überhaupt nicht) bis 7 (auf jeden Fall)	Ratingscale: 1 (not at all) to 7 (absolutely)
vr_d1_sex_ap_01	Ich denke diese Person ist ein guter Liebhaber.	I think this person is a good lover.	Ratingskala: 1 (überhaupt nicht) bis 7 (auf jeden Fall)	Ratingscale: 1 (not at all) to 7 (absolutely)

All variables collected in the video ratings are labeled with the prefix `vr_`. Each participant had up to five dates, so the variables are additionally named from `_d1_` to `_d5_` indicating the number of the respective date that was rated. As there were 4 raters for each Speed-Dating participant the variables are serially numbered from `_01` to `_04`.

EMPATHY AND FLIRTING

Two opposite-sex heterosexual raters answered the questions below about speed-dating participants. The raters watched the videos that were made of the Speed-Dating interactions. The video only showed the person who was to be rated though. There were as many videos of a participant as she or he had dates, each video showing one date. These ratings exist for male and female speed-dating participants.

Variable Name	Description		Response Format	
	German	English	German	English
vr_d1_empathy_01	Wie einfühlsam ist der Mann/die Frau gegenüber seiner Datingpartnerin/ihrer Datingpartner?	How empathic is this man/woman to his/her dating partner?	Ratingskala: 1 (gar nicht einfühlsam, mechanisch) bis 7 (sehr einfühlsam, auf den Partner zugeschnitten)	Ratingscale: 1 (not empathetic at all, mechanically) to 7 (very empathic, tailored to the partner's behavior)
vr_d1_flirting_01	Wie stark flirtet der Mann/die Frau mit seiner Datingpartnerin/ihrer Datingpartner?	How intensely does this man/woman flirt with his/her dating partner?	Ratingskala: 1 (gar nicht) bis 7 (sehr viel)	Ratingscale: 1 (not at all) to 7 (very intensely)

All variables collected in the video ratings are labeled with the prefix `vr_`. Each participant had up to five dates, so the variables are additionally named from `_d1_` to `_d5_` indicating the number of the respective date that was rated. As there were 2 raters for each Speed-Dating participant the variables are named by `_01` or `_02`.

SEATING SPACE

For each date, the seating space between the two speed-dating participants was coded at time intervals of 30 seconds. Therefore, we created a freeze image at 5 points (after 30, 60, 90, 120 and 160 seconds). The seating space was coded as the space between the participants' heads and pelvises measured in millimeters on the screen.

Variable Name	Description		Response Format	
	German	English	German	English
vr_d1_space_head_t1	Abstand zwischen den Köpfen der Speed-Dating Partner	Space between the speed-dating participants' heads	Millimeter auf dem Bildschirm	millimeters on the screen
vr_d1_space_head_mean	Gemittelter Abstand zwischen den Köpfen der Speed-Dating Partner über die fünf Zeitpunkte hinweg	Calculated mean space between the speed-dating participants' heads over the five points in time	Millimeter auf dem Bildschirm	millimeters on the screen
vr_d1_space_pelvis_t1	Abstand zwischen den Becken der Speed-Dating Partner	Space between the speed-dating participants' pelvises	Millimeter auf dem Bildschirm	millimeters on the screen
vr_d1_space_pelvis_mean	Gemittelter Abstand zwischen den Becken der Speed-Dating Partner über die fünf Zeitpunkte hinweg	Calculated mean space between the speed-dating participants' pelvises over the five points in time	Millimeter auf dem Bildschirm	millimeters on the screen

All variables collected in the video ratings are labeled with the prefix **vr**. Each participant had up to five dates, so the variables are additionally named from **_d1_** to **_d5_** indicating the number of the respective date that was coded. As the seating space was measured by time intervals, the variables are serially numbered from **_t1** to **_t5**.

SAMPLE PICTURES OF THE VIDEO MATERIAL

Figure 18 illustrates a screenshot of video of a male participant as it was presented to the raters for the rating for MATEVALUE and EMPATHY AND FLIRTING. Figure 19 shows how the video of female participants looked like for these ratings.

Fig. 18. Screenshot of a video of a male participant as it was presented to the raters.

All variables collected in the video ratings are labeled with the prefix *vr*. Each participant had up to five dates, so the variables are additionally named from *_d1_* to *_d5_* indicating the number of the respective date that was coded. As the seating space was measured by time intervals, the variables are serially numbered from *_t1_* to *_t5_*.

Fig. 19. Screenshot of a video of a female participant as it was presented to the raters.

All variables collected in the video ratings are labeled with the prefix *vr*. Each participant had up to five dates, so the variables are additionally named from *_d1_* to *_d5_* indicating the number of the respective date that was coded. As the seating space was measured by time intervals, the variables are serially numbered from *_t1_* to *_t5_*.

DATA

OVERVIEW OF DATA STRUCTURE AND NAMING

PHOTOS

The pictures of the Speed-Dating participants are all named in german, according to the following pattern:

	Participant's ID (equal to IDs used during the study)	–	participant's sex	–	type of picture	–	date of speed-dating-event
German	<i>four-digit number</i>	–	“m” or “f”	–	“ganz” or “portrait”	–	format YYYYMMDD
English Description	four-digit number	–	Male or female	–	body or face	–	format YYYYMMDD

Example: The picture of the body of participant 67 (women) of 23.02.13 is named: **0067_f_ganz_20130223**

VIDEOS

The videos of the dates are all named in german, according to the following pattern:

	Date of speed-dating-event	–	Number of date	–	Womens's ID (equal to IDs used during the study)	–	Men's ID (equal to IDs used during the study)	–	Type of video / Camera Angle
German	format YYYYMMDD	–	<i>two-digit number</i>	–	<i>four-digit number</i>	–	<i>four-digit number</i>	–	“tuer”, “beide”, “frau”, “mann”, “tonbeide”
English Description	format YYYYMMDD	–	two-digit number	–	four-digit number	–	four-digit number	–	Door, both participants, women, men, only sound of both

Example: The video of the third date on 24.01.2013, where participant with ID 128 (women) and participant with ID 6789 (men) dated each other, which shows both participants, is named: **20130124_03_0128_6789_beide**

Example 2: The video of the tenth date on 02.04.2015, where participant with ID 33 (women) and participant with ID 650 (men) dated each other, which shows only the male participant, is named: **20130402_10_0033_0650_mann**

All variables collected in the video ratings are labeled with the prefix **vr**. Each participant had up to five dates, so the variables are additionally named from **_d1_** to **_d5_** indicating the number of the respective date that was coded. As the seating space was measured by time intervals, the variables are serially numbered from **_t1** to **_t5**.

COMMENTS ON DATA IRREGULARITIES

The table below presents irregularities in data. The left column contains the ID of the person there are irregularities in data or the Questionnaires there are irregularities in that need to be mentioned and the right “Comment”-Columns specifies these irregularities.

Sequence Number / Questionnaire	Comment
Follow-Up Online Questionnaires 1-4	Through the different Follow-Up Questionnaires the matches aren't in the same order; the variables <code>f1_m1_partnerid</code> help specifying on which partner the data is about.
Follow-Up Online Questionnaires 4	For some participants, it wasn't possible to unambiguously match their partner's ID; in this case there is (0) coded in <code>f4_partnerid</code> and therefore there are all possible partner's IDs mentioned in <code>f4_possiblepartnerids</code> .
1, 400, 507, 1316	There is no Photo- or Video-data of these participants because these participants didn't assent to their data being examined.
235, 638, 1181	There is missing data in all variables of these participants because they cancelled their data.
10	No data for date 1 and 2 due to technical problems.
331	Missing data in the last Items of the Post-Date Computer Questionnaire, because the participant forgot to fill them out.
642	Missing data in the first Follow-Up, because the participant received a wrong matchmail.
879	Missing data in the End-of-Event Computer Questionnaire because the participant forgot to fill them out.
1611	Missing data in the End-of-Event Computer Questionnaire because due to technical problems the participant wasn't presented with the last page.
835	No typical date order: First date with 1091 instead of cancellation, therefore cancellation of the second date.
850	No typical date order: First date with 1076 instead of VP4

All variables collected in the video ratings are labeled with the prefix `vr`. Each participant had up to five dates, so the variables are additionally named from `_d1_` to `_d5_` indicating the number of the respective date that was coded. As the seating space was measured by time intervals, the variables are serially numbered from `_t1_` to `_t5_`.
